Secretary of State

SACRAMENTO 95814

Dear Californians:

This is your California ballot pamphlet for the June 8, 1982, Primary Election. It contains the ballot title, a short summary, the Legislative Analyst's analysis, the pro and con arguments and rebuttals, and the complete text or a summary of the complete text of each proposition. It also contains the legislative vote cast for and against measures proposed by the Legislature and measures subject to referendum.

To save printing costs, summaries have been provided in some cases. If you would like the complete text of the laws that would be repealed by Propositions 5 and 6, you may obtain a copy from my office or from your local county clerk or registrar of voters' office.

Read carefully each of the measures and the information about them contained in this pamphlet. Legislative propositions and citizen-sponsored measures are designed specifically to give you, the electorate, the opportunity to influence the laws which regulate us all.

Take advantage of this opportunity and vote on June 8, 1982.

FINAL VOTE CAST BY THE LEGISLATURE ON SB 153 (PROPOSITION 1)

Assembly—Ayes, 55 Noes, 18 Senate—Ayes, 28 Noes, 1

Analysis by the Legislative Analyst

Background:

The state prison system consists of 12 prisons plus a number of camps and community prerelease centers. Currently, the system has a designed capacity of about 24,600 inmates in prisons and camps plus 750 beds in community prerelease centers. The state has not constructed a new prison in nearly 20 years.

In recent years there has been a sharp increase in the number of inmates committed to the California prison system. In January 1979 there were about 22,500 inmates in the system. By January 1982 the number of inmates had increased to 28,500, or nearly 4,000 more than the designed capacity of prisons and camps. In addition, about 600 inmates were being housed in community centers. The Department of Corrections anticipates that by July 1986 the inmate population will total about 44,600 or 20,000 more than the designed capacity of the state's prison and camp system.

The current shortage of prison housing is being addressed in several ways. First, the Department of Corrections has resorted to "double-celling" inmates—that is, housing two inmates in a cell intended to house only one inmate. The department is also planning to contract with local governments and private organizations to add 1,250 beds to the community prerelease center program. Second, the Legislature has appropriated money to add approximately 1,300 additional prison beds in temporary buildings and in camps. These beds should be available for occupancy by July 1983. Third, the state has provided start-up funding for new prisons at Tehachapi, San Diego and other unspecified sites. The number of beds to be added by these prisons has not been determined. For this reason, the cost to the state for completing the prisons is unknown.

Proposal:

This measure, the New Prison Construction Bond Act of 1981, would authorize the state to issue and sell $495 million in state general obligation bonds. A general obligation bond is backed by the full faith and credit of the state, meaning that, in issuing the bonds, the state pledges to use its taxing power to assure that sufficient funds are available to pay off the bonds. The money raised by the bond sale would be used to finance the construction, renovation, remodeling and deferred maintenance of state prison facilities.

This measure does not specify how the money raised by the bond sale would be distributed among thes activities. This decision would be made by the Governor and the Legislature. The Governor's Budget for fiscal year 1982–83 gives an indication of how money raised by the sale of these bonds would be used. The budget proposes to spend $162 million from the bond proceeds. This proposal, which had not been reviewed or approved by the Legislature when this analysis was prepared, would provide *partial* funding for an additional 10,000 permanent beds and 1,850 temporary beds for the prison system. The Department of Corrections estimates that to complete construction of these permanent and temporary new facilities it would need $665 million in addition to the $162 million proposed in the Governor's Budget.

The Governor has proposed that, if this bond measure is not approved, the prison at Tehachapi be funded using $69 million in revenues that the state expects to receive in future years. This prison would provide 1,000 maximum-security beds. Neither the Governor nor the Legislature has proposed an alternative method of funding for the other prison beds if this measure is not approved by the voters.

Fiscal Effect:

The general obligation bonds authorized by this measure would be repaid over a period of up to 20 years. Under current law the state can sell bonds at any interest rate up to 11 percent.

If the full $495 million in general obligation bonds are sold at the maximum interest rate (11 percent) and are

paid off over a 20-year period, the interest cost to the state would be approximately $572 million. Thus, the cost of paying off the bonds authorized by this measure could total $1.067 billion. The cost would be less if the bonds were sold at interest rates less than 11 percent. This cost would be paid by the State General Fund using revenues received in future years.

The interest paid by the state on these bonds would be exempt from the state personal income tax. Therefore, to the extent that the bonds are purchased by California taxpayers in lieu of taxable bonds, the state would experience a loss of income tax revenue. It is not possible, however, to estimate what this revenue loss would be.

The new prison facilities contemplated by this bond measure would increase the annual operating cost incurred by the State Department of Corrections. This is because it is more expensive to administer and operate new prison facilities than it is to maintain overcrowded conditions within existing prisons. It is not possible to estimate this additional cost with any degree of accuracy, but the additional cost would be major. Such costs might be incurred even if this measure is not approved, were the state to finance the construction of additional prison facilities using tax revenues.

Text of Proposed Law

This law proposed by Senate Bill 153 (Statutes of 1981, Ch. 273) is submitted to the people in accordance with the provisions of Article XVI of the Constitution.

This proposed law expressly adds sections to the Penal Code; therefore, new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SECTION 1. Chapter 12 (commencing with Section 7100) is added to Title 7 of Part 3 of the Penal Code, to read:

CHAPTER 12. NEW PRISON CONSTRUCTION BOND ACT OF 1981

7100. This chapter shall be known and may be cited as the New Prison Construction Bond Act of 1981.

7101. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter except that, notwithstanding anything in the State General Obligation Bond Law, the maximum maturity of the bonds shall not exceed 20 years from the date of each respective series. The maturity of each respective series shall be calculated from the date of such series.

7102. There is in the State Treasury the New Prison Construction Fund, which fund is hereby created.

7103. The New Prison Construction Committee is hereby created. The committee shall consist of the Controller, the State Treasurer, and the Director of Finance. Such committee shall be the "committee," as that term is used in the State General Obligation Bond Law.

7104. The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate of four hundred ninety-five million dollars ($495,000,000), in the manner provided in this chapter. Such debt or debts, liability or liabilities, shall be created for the purpose of providing the fund to be used for the object and work specified in Section 7106.

7105. The committee may determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter, and if so, the amount of bonds then to be issued and sold. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

7106. The moneys in the funds shall be used for the construction, renovation, remodeling, and deferred maintenance of state correctional facilities.

7107. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereon.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on such bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of such revenue to do and perform each and every act which shall be necessary to collect such additional sum.

All money deposited in the fund which has been derived from premium and accrued interest on bonds sold shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

All money deposited in the fund pursuant to any provision of law requiring repayments to the state which are financed by the proceeds of the bonds authorized by this chapter shall be available for transfer to the General Fund. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest on the bonds which has been paid from the General Fund.

7108. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter.

(b) Such sum as is necessary to carry out the provisions of Section 7109, which sum is appropriated without regard to fiscal years.

7109. For the purpose of carrying out the provisions of this chapter, the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the committee in accordance with this chapter. Any money made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter. Such withdrawals from the General Fund shall be returned to the General Fund with interest at the rate which would otherwise have been earned by those sums in the Pooled Money Investment Fund.

7110. All proceeds from the sale of bonds, except those derived from premiums and accrued interest, shall be available for the purpose provided in Section 7106 but shall not be available for transfer to the General Fund to pay principal and interest on bonds. The money in the fund may be expended only as herein provided.

7111. Money in the fund may only be expended for projects specified in this chapter pursuant to appropriations by the Legislature.

1 New Prison Construction Bond Act of 1981

Arguments in Favor of Proposition 1

Since 1975, California has enacted more tough anticrime legislation than at any other time in the state's history. Prison is now mandated for many major crimes, such as the statute requiring prison for those who use a gun in the commission of serious felonies. Judges must now impose fixed sentences, and, in most cases, early release on parole is no longer possible. California has made it clear that convicted criminals will go to prison.

As a result, many more criminals are going into the prison system each month. In fact, prison commitments have doubled in the last seven years, resulting in more than 30,000 inmates in California prisons today, the largest number in our history. The Department of Corrections estimates that the prison population will jump to over 40,000 in the next three years.

Despite this tremendous increase in the number of criminals being sent to prison, California has not built a new prison in more than 15 years. Our institutions are now dangerously overcrowded with thousands of inmates double-celled or housed in temporary facilities.

Faced with similar problems of overcrowding, courts in 39 other states have already issued orders to improve prison conditions or reduce prison populations. The issue is simple—if we wish to continue to lock up serious repeat and violent offenders to protect society, we must have the additional cells in which to hold them. The alternative is the release of prisoners to the communities before their sentences are completed. This bond measure will finance construction of new cells and expanded emergency housing for 7,000 additional prisoners. We strongly urge your yes vote for a safer California.

EDMUND G. BROWN JR.

ROBERT PRESLEY
State Senator, 34th District

As a State Senator, I authored the "Use a Gun, Go to Prison" law. That law requires that any criminal convicted of using a gun in the commission of a serious felony crime must be sent to state prison.

I also authored two other mandatory sentencing laws: one to protect the elderly and disabled, the other requiring a state prison sentence for those convicted of forcible rape.

These tough laws and others have resulted in more criminals being sentenced to state prison than ever before. IN THE PAST THREE YEARS, THE NUMBER OF FELONS IN OUR STATE PRISON HAS INCREASED FROM 21,300 IN JANUARY 1979 TO 29,100 IN JANUARY 1982. However, only one-third of the *convicted* felons are sent to state prison.

The number of prisoners in state prison is expected to increase to more than 40,000 in the next three years.

NEW PRISONS MUST BE BUILT IF WE ARE GOING TO CONTINUE TO PROTECT THE PUBLIC.

We have no real choice other than to build new facilities in order to remove violent criminals from the community.

HOWEVER, WE MUST ALSO TAKE STEPS TO MAKE OUR PRISONS SELF-SUPPORTING. WHILE IN PRISON, INMATES SHOULD WORK AND PAY FOR THEIR UPKEEP.

IF WE DO NOT BUILD NEW PRISONS, AND SOON, COURTS MAY PREVENT US FROM PLACING ADDITIONAL CRIMINALS BEHIND BARS.

IF YOU FAVOR INCREASED PUBLIC SAFETY, VOTE YES ON PROPOSITION 1.

Rebuttals to Arguments in Favor ofProposition 1

There is no question about increasing prison populations or the need for additional facilities.

The real question is: Why borrow the money at high interest rates when we could build them from current revenues as needed? This bond issue will add over $500,000,000 to the cost, doubling the price tag.

We are not short of money—we are short of the political willpower and good management required to put our spending priorities in order! Just a year ago we raided available capital outlay funds that could have been used to build prisons, using them instead to balance a wasteful budget. Now you are asked to pay double for such incompetency!

Send a message to those who waste your money. VOTE "NO" ON PROPOSITION 1!

OLLIE SPERAW
State Senator, 31st District

California needs prisons, but Proposition 1 is too expensive and financially unsound.

Because of bond costs, Proposition 1 will more than double the taxpayer cost of prison facilities from $495 million to over one billion dollars—unnecessarily. An independent official analyst says there are presently sufficient funds in California's budget to build necessary prisons if the State Legislature would change its funding priorities.

Proposition 1 will allow the state to take money from the General Fund before bonds are sold. This is unsound financial practice which could force dramatically increased taxes.

Proposition 1 could encourage the construction of elaborate and expensive facilities. There *are* alternatives, including the use of surplus military facilities.

Let's not drive California further into debt. Vote no on Proposition 1.

Arguments Against Proposition 1

We need to improve our prison facilities. We don't need this expensive manner of financing!

VOTE NO ON PROPOSITION ONE!

Don't be misled into buying this extravagant, unnecessary, "politics-as-usual" spending program. The incumbent political leadership in Sacramento put this bond issue on the ballot in an effort to cover up 50 years of fiscal mismanagement and indifference toward our state correctional systems. The fact is that this incredibly expensive funding scheme is a continuation of expedient, hit-or-miss fiscal policies which have led to the squandering of our multibillion-dollar budget surplus, misappropriation of millions in tidelands oil funds for budget-balancing purposes, and neglect of vital capital construction needs. VOTE NO ON PROPOSITION 1 and send a message to the wastemakers in Sacramento: The public's concern about crime is no excuse for more gouging of the taxpayers of this state. This bond act carries a price tag of *MORE THAN A BILLION DOLLARS*—not the $495 million advertised! Legislative Analyst estimates interest payments over 20 years will total about $572 million, which would bring the ultimate cost of Proposition 1 to $1.067 billion.

Needed prison construction in this state could be funded from existing resources if we would examine our spending priorities and purge the waste from ongoing state operations. Proposition 1 highlights the fact that we do not have a fiscal problem in Sacramento; we have a management problem! Reject this BILLION-DOLLAR HUSTLE! VOTE NO ON PROPOSITION 1.

OLLIE SPERAW
State Senator, 31st District

VOTE NO on Prop 1.

There is no doubt that more jails and prisons are urgently needed in California. However, Proposition 1 is not the way to finance them.

What Prop 1 will do is give the bureaucrats 495 million dollars more to spend on expensive, elaborate prisons while forcing our children, grandchildren and all of us deeper into debt.

Prop 1 contains a dangerous provision which allows the state to spend money from the General Fund before the bonds are sold. This is highly risky because, if the bonds are not sold, a deficit will be created which will force an increase in taxes.

The State Legislative Analyst has indicated that existing revenues, including tideland oil revenues, are more than sufficient to finance prison construction *if the Legislature would establish proper priorities.*

Tideland oil revenues are intended to be used for capital improvements such as the construction of new prison facilities. But in recent years the Legislature used those revenues to pay for new spending programs.

More original approaches must be found to solve our prison problem. We can turn unused government property, including surplus military facilities, into prisons at a fraction of the cost of new construction.

Yes, more prisons are needed, but let's not give the bureaucrats more money to waste. Let's insist our tax dollars be spent efficiently and economically to protect the public.

VOTE NO on Prop 1.

Rebuttals to Arguments Against Proposition 1

With the leadership of Senator Robert Presley and others, I have been able to sign more tough anticrime laws than any other Governor in history.

These strong new laws and the tough sentences which our judges are now handing out have doubled the number of criminals being sent to prison. As proof of the dramatic crackdown on crime, a convicted felon is twice as likely to go to prison today as in 1974.

California is now locking up more prisoners than ever before—and we are expecting an additional 10,000 prisoners in the next two years! Given these hard facts, it is no time to block new cells and force judges to release prisoners who belong behind bars.

Proposition 1 is the best method to provide more cells by spreading the payment over many years through bonds. Only a poor money manager would pay in one year for prisons which will benefit future generations over the next 50–60 years. Vote yes on Proposition 1.

EDMUND G. BROWN JR.
Governor

ROBERT PRESLEY
State Senator, 34th District

Virtually all of California law enforcement supports passage of Proposition 1.

If new prisons are not built very soon it is likely that the courts will impose maximum population levels, which will result in some early releases, and other felons not going to prison at all.

THIS BOND ISSUE WILL COST LESS THAN $2.50 PER YEAR FOR EACH CITIZEN OF THIS STATE!

This is a small sum to pay for increased public safety.

Analysis by the Legislative Analyst

Background:

The California Constitution assigns several responsibilities to the Lieutenant Governor, one of which is serving as President of the Senate with the power to cast the deciding vote in case of a tie. In practice, however, the President pro Tempore, an elected Senator chosen by a majority of the Senators, usually presides when the Senate meets.

Proposal:

This amendment would delete from the Constitution the provision designating the Lieutenant Governor as President of the Senate and giving him the power to cast a vote in case of a tie. If the amendment is approved, the Lieutenant Governor would no longer have the authority to preside over the Senate or to resolve tie votes. These matters would be governed instead by other sections of the Constitution, which provide that:

(1) the Senate may choose its officers and adopt rules for its proceedings; and

(2) no bill may be passed unless a *majority* of the membership in each house votes in favor of it. (Therefore, a tie vote would automatically defeat a measure being considered.)

Fiscal Effect:

This measure has no direct state or local fiscal impact.

Text of Proposed Law

This amendment proposed by Senate Constitutional Amendment 33 (Statutes of 1980, Resolution Chapter 94) expressly amends the Constitution by amending a section thereof; therefore, existing provisions proposed to be deleted are printed in ~~strikeout type~~.

PROPOSED AMENDMENT TO ARTICLE V

SEC. 9. The Lieutenant Governor shall have the same qualifications as the Governor. ~~The Lieutenant Governor is President of the Senate but has only a casting vote.~~

2 President of Senate

Argument in Favor of Proposition 2

Our Lieutenant Governor becomes Governor every time our Governor leaves California for any reason, according to a recent Supreme Court ruling.

Yet the Lieutenant Governor also is "President of the Senate," supposedly the head of one house of our Legislature.

How can one person be both Governor (head of one branch of government) and "President of the Senate" (head of one house of a separate branch)? Doesn't this violate a basic principle of American government—*separation of powers between the executive and law-making branches?*

America's founding fathers wouldn't have stood for it. They wanted some people to make laws and a different group of people to carry them out, so no one would have too much power. That's why the Vice President's role is so different from the Lieutenant Governor's role.

A Vice President rarely becomes President. Vice President Bush did not become President when President Reagan visited Canada, or even when he was shot. And when a Vice President does become President, the Vice President is President for the rest of the former President's term, and the Vice President is no longer the presiding officer of the Senate. When President Nixon resigned, Vice President Ford became President for three years and appointed a new Vice President.

But a California Lieutenant Governor becomes Governor whenever the Governor is away. The Lieutenant Governor is Governor only until the Governor returns, and *the Lieutenant Governor remains "President of the Senate."* In fact, a Lieutenant Governor under current law could sign into law, or veto, a bill that he or she voted on in the Legislature.

Proposition 2 would change this by repealing the part of the State Constitution that names the Lieutenant Governor "President of the Senate." It would recognize the Lieutenant Governor as an executive-branch officer, ready at all times to move up to the office of Governor with or without notice.

Proposition 2 also would allow the voters to hold their State Senators more accountable, because it would be clear that *Senators alone are responsible* for the Senate's actions. The Senate would select its own leader—in name as in reality.

When schoolchildren study California government, they read in the Constitution that the Lieutenant Governor is "President of the Senate." But that's *not true* in reality. The real head of the Senate is a Senator, selected by the Senate itself.

And when voters elect the Lieutenant Governor, some of them think they also are electing the presiding officer of the Senate, with a tie-breaking vote. But that's *not true* in reality, either. Consistent with recent tradition, the current Lieutenant Governor does not preside, and no Lieutenant Governor has cast a tie-breaking vote since 1976.

Proposition 2 was passed by two-thirds majorities of both the State Senate and Assembly, with both Republicans and Democrats voting "yes." It deserves your "yes" vote, too.

BARRY KEENE
State Senator, 2nd District

Rebuttal to Argument in Favor of Proposition 2

The proponents of this proposition entirely misstate the role of the Lieutenant Governor. The California Constitution is modeled after the United States Constitution in that the Lieutenant Governor of California, like the Vice President of the United States, is President of the Senate. There is no conflict between this duty and the Lieutenant Governor's authority to act as Governor when the Governor is absent from the state.

Supporters of Proposition 2 claim it is possible for the Lieutenant Governor to sign or veto a bill which he or she voted on in the Legislature. While remotely possible, it is hardly probable. In fact, in California's 133-year history it has never happened. Even during the past 3½ years, with the Governor absent from the state more than 255 days, the issue never arose.

Proposition 2 will NOT make Senators more accountable. If anything, it will give them greater opportunities to avoid tough issues. For instance, in September 1979, the Lieutenant Governor was called upon to break a 17-17 tie on an amendment to a bill that made it easier for criminals to make bail (6 Senators had abstained). His tie-breaking vote forced some of those Senators to commit themselves on that important issue. You can understand why Senators don't want the Lieutenant Governor around.

We need our Lieutenant Governor as President of the Senate with that tie-breaking vote.

Argument Against Proposition 2

Since its original adoption in 1849, the California Constitution has provided that the Lieutenant Governor shall be the President of the Senate with the right to vote in the event of a tie. Now we are asked to repeal this provision and by so doing eliminate the only constitutional duty of the Lieutenant Governor. No compelling reasons exist for making this change.

By providing that the Lieutenant Governor is the President of the Senate, California is among the vast majority of states that have chosen to model their Constitution after that of the federal government.

The duties of the Lieutenant Governor are modeled after those of the Vice President of the United States. Our Lieutenant Governor, however, is elected separately from the Governor. Presiding over the State Senate is an important function of this independently elected official. The office should not be stripped of this responsibility. Vote NO on Proposition 2.

Rebuttal to Argument Against Proposition 2

Lieutenant Governor Mike Curb and former Lieutenant Governor Ed Reinecke (both Republicans), like former Lieutenant Governor Mervyn Dymally (a Democrat), have spelled out the valid reasons to vote for Proposition 2.

In a letter of support written a few days before the Senate passed the proposition, Lieutenant Governor Curb wrote:

"I feel that the current constitutional arrangement—whereby the Lieutenant Governor may preside over the Senate and vote upon legislation that might later be placed before him as Acting Governor for signature or veto—is a clear violation of the traditional separation of the legislative and executive branches of state government."

Lieutenant Governor Curb went on to note that the recent State Supreme Court ruling makes this the right time to pass this proposition. He wrote:

"Inasmuch as the Supreme Court ruled . . . that the Lieutenant Governor assumes all responsibilities of the governorship during the Governor's absence from the state, I feel it is time to make a clear distinction between the legislative and executive branches. I therefore support your proposed constitutional amendment."

Former Lieutenant Governor Reinecke also wrote letters of support when this proposition was before the Legislature. He said:

"I feel that the Lieutenant Governor's office should be in the executive, not the legislative, branch. No one can do justice to both . . ."

3 Taxation. Real Property Valuation. Change in Ownership

Official Title and Summary Prepared by the Attorney General

TAXATION. REAL PROPERTY VALUATION. CHANGE IN OWNERSHIP. LEGISLATIVE CONSTITUTIONAL AMENDMENT. Under existing provisions, real property is reappraised for ad valorem tax purposes when a "change in ownership" occurs. This measure provides that "change in ownership" does not include the acquisition of real property as a replacement for comparable property if the person acquiring the real property has been displaced from the property replaced by eminent domain proceedings, by acquisition by a public entity, or governmental action resulting in a judgment of inverse condemnation. Applies to property acquired after March 1, 1975, for assessments made after date this measure takes effect. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: Unknown, but probably significant, loss of property tax revenues, and minor to moderate administrative cost increases to local governments. Under existing law, loss of revenue to local school and community college districts would be offset by increased state aid, which would increase state costs. State income tax revenues would increase a minor amount due to lower property tax deductions.

FINAL VOTE CAST BY THE LEGISLATURE ON ACA 4 (PROPOSITION 3)

Assembly—Ayes, 70 Noes, 0 Senate—Ayes, 28 Noes, 0

Analysis by the Legislative Analyst

Background:

Article XIII A was added to the California Constitution by Proposition 13 on June 6, 1978. It provides that the value of real property (land and buildings) shall be reappraised for property tax purposes when purchased from another party, when newly constructed, or when a "change in ownership" has occurred. Otherwise, the full cash value of the property may not be increased for property tax purposes by more than 2 percent per year.

Article XIII A also specifies that a building shall not be deemed to be "newly constructed" if it has been reconstructed after being damaged by a disaster, as declared by the Governor. To qualify for this exemption, however, the fair market value of the reconstructed property must be comparable to the fair market value of the property prior to the disaster. If, instead of reconstructing the damaged building, the property owner acquires a replacement property following a disaster, the replacement property *is* subject to reappraisal under the Constitution.

Current law provides for the acquisition of property by governmental agencies through either purchase or condemnation (eminent domain). The law requires that the property owner be compensated if the owner's property is acquired through condemnation. Current law also permits a property owner to sue the government (in inverse condemnation) for compensation if the owner believes that his or her property has been "taken" or damaged by governmental action.

In general, the amount of compensation provided property owners displaced by governmental action is limited to the fair market value of the property plus certain other amounts, including relocation expenses. The amount of compensation, however, does *not* include any amount for increased property taxes that the owner must pay on a replacement property.

Proposal:

This measure affects the "change in ownership" provisions of Article XIII A. Specifically, it changes the rules governing the reappraisal of replacement property for an owner who has been displaced as a result of eminent domain, purchase by a public entity, or action taken by a government agency which resulted in inverse condemnation. Under these circumstances the acquisition of replacement property would not be considered a "change in ownership for property tax reappraisal purposes," provided that the replacement property is comparable to the property from which the person was displaced. "Comparable property" is defined by this measure as property which is similar in size, utility, and function to the property from which the person was displaced, or which conforms to state regulations, defined by the Legislature, concerning the relocation of persons displaced by governmental actions. Comparable property, as defined by this measure, need not be of comparable *value* to the property from which the affected person was displaced.

This modification of the change in ownership provisions would apply to any property acquired after March 1, 1975, but would require county assessors to revise the assessments of affected properties only for property tax rolls established on March 1, 1983, and annually thereafter.

Fiscal Effect:

This measure would result in an unknown, but probably significant, loss of property tax revenues to local governments. Cities, counties and special districts would have to bear these property tax losses. (Although school and community college districts would also lose property tax revenue, under existing law these losses would be fully offset by increases in state aid.) County

assessors and tax collectors would probably experience minor to moderate administrative costs to revise assessments of properties affected by this measure.

This amendment would affect state expenditures and revenues in two ways. First, the state would incur additional, but unknown, costs for providing aid to local school and community college districts, as noted above. Second, state income tax revenues would increase as a result of this measure because these property owners would have lower property tax deductions on their income tax returns. These income tax revenue increases, however, would represent only a small fraction of total property tax revenue reductions.

Text of Proposed Law

This amendment proposed by Assembly Constitutional Amendment 4 (Statutes of 1982, Resolution Chapter 5) expressly amends the Constitution by amending a section thereof; therefore, new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED AMENDMENT TO ARTICLE XIII A

SECTION 2. (a) The full cash value means the county assessor's valuation of real property as shown on the 1975–76 tax bill under "full cash value" or, thereafter, the appraised value of real property when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment. All real property not already assessed up to the 1975–76 full cash value may be reassessed to reflect that valuation. For purposes of this section, the term "newly constructed" shall not include real property which is reconstructed after a disaster, as declared by the Governor, where the fair market value of such real property, as reconstructed, is comparable to its fair market value prior to the disaster.

(b) The full cash value base may reflect from year to year the inflationary rate not to exceed 2 percent for any given year or reduction as shown in the consumer price index or comparable data for the area under taxing jurisdiction, or may be reduced to reflect substantial damage, destruction or other factors causing a decline in value.

(c) For purposes of subdivision (a), the Legislature may provide that the term "newly constructed" shall not include the construction or addition of any active solar energy system.

(d) For purposes of this section, the term "change in ownership" shall not include the acquisition of real property as a replacement for comparable property if the person acquiring the real property has been displaced from the property replaced by eminent domain proceedings, by acquisition by a public entity, or governmental action which has resulted in a judgment of inverse condemnation. The real property acquired shall be deemed comparable to the property replaced if it is similar in size, utility, and function, or if it conforms to state regulations defined by the Legislature governing the relocation of persons displaced by governmental actions. The provisions of this subdivision shall be applied to any property acquired after March 1, 1975, but shall affect only those assessments of that property which occur after the provisions of this subdivision take effect.

3 Taxation. Real Property Valuation. Change in Ownership

Argument in Favor of Proposition 3

Proposition 3 would prevent property tax increases for property owners who are forced to relocate to make way for a government project.

Under the current provisions of the California Constitution, all personal and commercial property is assessed at a tax rate of 1 percent of the full cash value as shown on the 1975–76 tax bill, with an increase not to exceed 2 percent per annum to allow for inflation. At the point of sale, however, the property is assessed at the present rate, which may be many times greater than the 1975 assessment.

An inequity occurs when a governmental agency forces a property owner to relocate to make way for a public project through eminent domain proceedings or inverse condemnation. The displaced property owner is then faced with the double penalty of a tax increase after a government-caused relocation.

Proposition 3 would correct this disparity and ensure greater tax equity for all Californians. It passed through the Legislature with no opposition, and we urge your "yes" vote on Proposition 3.

Rebuttal to Argument in Favor of Proposition 3

Proponents argue that Proposition 3 would ensure greater tax equity for all Californians. In fact, it perpetuates past inequities and creates further inequities.

Under Proposition 3, when a person displaced by governmental action purchases replacement property, the replacement property will not be reassessed even if the replacement property is far more valuable than the previously owned property. Thus, a wealthy individual could replace property from which he was displaced with property of much higher value with its assessment frozen at 1975 levels by Proposition 13, and receive a huge tax break. The average homeowner could not do so. Once again we are faced with a proposal that gives disproportionate tax breaks to the rich.

Proposition 3 contains the further inequity of giving greater tax breaks for property acquired prior to the 1975 assessment. The date that property was previously acquired is totally irrelevant to the extent of the tax break a displaced individual should receive, yet Proposition 3 draws this arbitrary distinction.

Proponents of Proposition 3 imply that voters should pass it merely because it passed the Legislature with no opposition. This is contrary to the State Constitution, which provides that the Constitution can be amended only by the voters. The Legislature only has the power to propose amendments. Voters are not rubber stamps for the Legislature, and I urge all to examine the proposition carefully. A close look reveals inequities that the proponents gloss over. These unjust provisions mandate the defeat of Proposition 3. Vote no!

Taxation. Real Property Valuation. Change in Ownership 3

Argument Against Proposition 3

Proposition 3 is technically flawed and fundamentally unfair. As such, it should be rejected by voters.

Under Proposition 13, a real property owner's ad valorem taxes are limited to 1 percent of the assessed valuation for the 1975–76 tax bill or the appraised value when purchased, newly constructed, or a change in ownership has occurred after the 1975 assessment.

This proposition creates an exception for a change of ownership of real property that is a replacement for "comparable" property if the person acquiring the real property has been displaced by eminent domain proceedings, acquisition of the property by a public entity, or a judgment of inverse condemnation.

The major technical flaw in Proposition 3 lies in its definition of the word "comparable." Real property is deemed "comparable" to the property replaced if it is "similar in size, utility, and function." Two pieces of property can be similar in size, utility, and function while at the same time there is a wide disparity in value. A beachfront home is worth far more than a home the same size somewhere else, to give just one example. Proposition 3's failure to require comparable value within a specified range provides for tax breaks that are clearly not intended.

Proposition 3 also perpetuates the injustice of Proposition 13, which allows reassessment of property acquired after 1975 but prohibits reassessment of property acquired prior to the 1975 assessment. While the provisions do apply to property purchased after March 1, 1975, they only affect assessments occurring after the proposition takes effect. Thus, Proposition 3 gives a much greater tax break to persons who acquired property prior to March 1, 1975. This is unjust; a person who is displaced is just as displaced no matter when the property was acquired.

Proposition 3 is drafted so as to prohibit reassessment of replacement property no matter how much disparity there is in value, so long as it meets the loose definition of "comparable." Proposition 3 unfairly gives more tax breaks to persons who acquired property prior to March 1, 1975. Proposition 3 should be soundly defeated by voters. Vote no!

Rebuttal to Argument Against Proposition 3

Each year thousands of California property owners are forced from their homes through government acquisition of their property, which is then used for construction of freeways, redevelopment plans, and other public projects.

The argument of the opponent would leave these displaced property owners with no relief from the burden of increased tax assessments. The proponents of Proposition 3 think that this is unfair. A resident who is forced to move to clear the way for a government project should not be faced with increased financial obligations in addition to the upheaval and imposition caused by the relocation.

The opponent's second point is misleading. Proposition 3 redefines the term "change in ownership" so that it excludes property owners who are acquiring replacement property after being displaced by eminent domain proceedings. Therefore, any property owner who is forced by governmental action to relocate after these provisions take effect will be shielded from the "change in ownership" clause in Proposition 13 which triggers the property tax reassessment.

Proposition 3 will provide needed tax relief for residents whose lives are disrupted to make way for public projects, and it will do so without expense to California taxpayers. Vote "yes" for greater tax equity in California.

4 Bail

Official Title and Summary Prepared by the Attorney General

BAIL. LEGISLATIVE CONSTITUTIONAL AMENDMENT. Adds provisions to the Constitution prohibiting release of persons on bail when court makes specified findings. Release on felony offenses is prohibited where: (1) Acts of violence on another person are involved and court finds substantial likelihood the person's release would result in great bodily harm to others. (2) The person has threatened another with great bodily harm and court finds substantial likelihood the person would carry out the threat. In fixing bail, requires court to consider seriousness of offense, previous criminal record, and probability of appearance at trial. Retains existing provisions regarding releases on bail. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: By broadening the circumstances under which bail could be denied, would increase jail and bail hearing costs of local governments. Due to credit received for jail time while awaiting trial, there could be offsetting savings as a result of less time having to be spent in jail or prison if person later sentenced.

FINAL VOTE CAST BY THE LEGISLATURE ON ACA 14 (PROPOSITION 4)

Assembly—Ayes, 71	Senate—Ayes, 27
Noes, 0	Noes, 1

Analysis by the Legislative Analyst

Background:

Under the State Constitution and statutory law, the courts generally must release on bail all persons accused of committing a crime, while they await trial. The courts may deny bail *only* for those who are accused of crimes punishable by death, provided the court determines that the proof of guilt is evident or the presumption of guilt is great.

Court decisions have held that the purpose of bail is to assure that the defendant will appear in court to stand trial. In fixing the amount of bail, courts are required by statute to consider the seriousness of the offense with which the person is charged, the defendant's previous criminal record, and the probability that the defendant will appear at the trial or hearing of the case. The State Constitution prohibits courts from setting "excessive" bail.

The courts may allow those accused of committing a crime to be released without bail upon their written promise to appear in court when required. The failure to appear in court as promised can result in additional criminal charges being filed against the accused.

Proposal:

This measure would add to the State Constitution the requirement that the courts, in fixing the amount of bail, consider the same factors now required by statute (that is, the seriousness of the offense, the person's previous criminal record, and the likelihood that the person will appear to stand trial). In effect, this would prevent the Legislature from changing the requirements that now govern the courts in setting bail, without a vote of the electorate.

The proposal also would broaden the circumstances under which the courts may deny bail. Specifically, this measure would allow the courts to deny bail in felony cases under two additional sets of circumstances:

1. Bail could be denied in felony cases involving acts of violence against another person when (a) the proof of guilt is evident or the presumption of guilt is great and (b) there is a substantial likelihood that the accused's release would result in great bodily harm to others;
2. Bail could be denied in felony cases when (a) the proof of guilt is evident or the presumption of guilt is great and (b) the accused has threatened another with great bodily harm and there is a substantial likelihood that the threat would be carried out if the person were released.

Fiscal Effect:

The provisions of this measure that would add existing requirements of law regarding bail to the State Constitution would have no fiscal effect. The provisions that would broaden the circumstances under which bail could be denied would increase costs to local governments in two ways. First, it would increase the number of persons held in jail while they are awaiting trial, and thereby increase local jail costs. Second, it could lead to increased expenditures for bail hearings.

There could be offsetting savings, however, if the person for whom bail is denied is later convicted.

Persons held in jail as a result of this measure would receive credit for their jail time, if they were later sentenced to state prison. Therefore, these persons would probably spend less time in state prison than they would under existing law. This would reduce the state's costs of operating the prison system.

Likewise, persons later sentenced to jail would receive credit for the time spent in jail prior to their conviction. This could offset the pretrial costs in some cases.

Text of Proposed Law

This amendment proposed by Assembly Constitutional Amendment 14 (Statutes of 1982, Resolution Chapter 6) expressly amends the Constitution by amending a section thereof; therefore, existing provisions proposed to be deleted are printed in ~~strikeout type~~ and new provisions proposed to be inserted or added are printed in *italic type* to indicate that they are new.

PROPOSED AMENDMENT TO ARTICLE I

SEC. 12. A person shall be released on bail by sufficient sureties, except for *:*

(a) ~~*capital*~~ *Capital* crimes when the facts are evident or the presumption great *:*;

(b) Felony offenses involving acts of violence on another person when the facts are evident or the presumption great and the court finds based upon clear and convincing evidence that there is a substantial likelihood the person's release would result in great bodily harm to others; or

(c) Felony offenses when the facts are evident or the presumption great and the court finds based on clear and convincing evidence that the person has threatened another with great bodily harm and that there is a substantial likelihood that the person would carry out the threat if released.

Excessive bail may not be required. *In fixing the amount of bail, the court shall take into consideration the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case.*

A person may be released on his or her own recognizance in the court's discretion.

4 Bail

Argument in Favor of Proposition 4

VOTE YES ON PROPOSITION 4!

Approval of Proposition 4 will constitute a significant breakthrough on behalf of public safety. It will enable judges to refuse to release on bail persons accused of violent felonies in clear cases where the court finds based upon clear and convincing evidence that there is a substantial likelihood the defendant's release would result in great bodily harm to others.

Proposition 4 will also allow judges to deny release on bail to a defendant who is accused of committing any felony, be it violent or nonviolent, in clear cases where the court finds based on clear and convincing evidence that the defendant has threatened another with great bodily harm and that there is a substantial likelihood that the person would carry out the threat if released.

After Proposition 4 is approved by the voters, judges will no longer be helpless to protect innocent and defenseless citizens from the ravages of violence and rape perpetrated by offenders on bail who have long records of assault and sexual attacks.

After Proposition 4 is approved by the voters, judges will be able to deny bail to persons accused of felonies who have made serious threats of inflicting great bodily harm upon witnesses or victims.

At present judges do not have the power that Proposition 4 would give them to protect the public from the vicious depredations of offenders who are awaiting trial. News of these persons' terrible crimes are altogether too often the subject of newspaper headlines and television newscasts.

Present law does not allow judges in making bail decisions to consider public safety or the likelihood that one who is accused of a felony will commit violent acts while out on bail awaiting trial. Proposition 4 will change this law and provide the judges with a necessary legal tool to protect the public from repeat violent offenders.

It is high time to strike a blow for common sense and public protection. Assembly Speaker pro Tem Leo T. McCarthy and Assembly Criminal Justice Committee Chairman Terry Goggin join us in urging your yes vote on Proposition 4.

Rebuttal to Argument in Favor of Proposition 4

The proponents' promise of public safety is illusory. Fulfilling the promise hinges on the ability of human beings to predict what other human beings will do. Something no mortal can perform, and something neither courts nor the mental health system has shown any success at doing.

Preventive detention does not assure the safety of witnesses and victims. Though the defendant is kept behind bars, unknown friends and associates remain available to make threats and harm witnesses and victims that the police are unable to protect. The only real assurance of safety would be to lock witnesses up while the case is pending—something no one has seriously proposed.

Preventive detention is just another unproven gimmick thrown at a social horror in the desperate hope that it will magically dissolve the menace, like some superhero out of Saturday morning cartoons.

The public's outrage at crime and violence is proper, and people's desire that their government take substantial steps to eliminate violent crime must be heeded. But adoption of the preventive detention gimmick won't provide the public safety. The only sure outcome is that a free people will surrender a basic right against its government, to the discretion of lawyers, psychiatrists, and judges.

Argument Against Proposition 4

Proposition 4 brings preventive detention to California. People who have never been convicted of anything are to be kept behind bars—not on the basis of what they have done, but on the basis of what someone (presumably a psychiatrist) predicts they *may* do.

Predictions of dangerousness are notoriously inaccurate. Attempts to predict future dangerousness have proven them less reliable than a flip of the coin.

Presumption of innocence dates back to the Magna Carta in 1215. It was not a gift of some magnanimous ruler, but was seized by the people by force of arms against the will of the government. Proposition 4 happily shoves aside that hard-won right of all citizens, substituting in its place a system of justice that was best described by Lewis Carroll in *Through the Looking Glass:*

> The Red Queen observes that the King's Messenger is "in prison now, being punished; and the trial doesn't even begin till next Wednesday; and of course the crime comes last of all." Perplexed, Alice asks, "Suppose he never commits the crime?" "That would be all the better, wouldn't it?" the Queen replies.

Surrendering every citizen's right to bail when accused of a crime does nothing to reduce crime nor to make us safer. Only 5 percent of all persons released on bail are arrested (not convicted) for serious crimes committed while awaiting trial. And 10 years of preventive detention in Washington, D.C. (the only American jurisdiction which has so far adopted preventive detention), has brought about no reduction in violent crime in that city.

We urge you to vote "no" on Proposition 4, which sacrifices a primary right of a free people for a will-o'-the-wisp promise of safety which the preventive detention gimmick cannot fulfill.

Rebuttal to Argument Against Proposition 4

Proposition 4 contains ample due process protections for the defendant. Its provisions allow denial of release on bail only for "felony offenses involving acts of violence on another person when the facts are evident or the presumption great and the court finds based upon clear and convincing evidence that there is a substantial likelihood the person's release would result in great bodily harm to others," or in violent or nonviolent felony offenses in similarly clear cases where "the court finds based upon clear and convincing evidence that the defendant has threatened another with great bodily harm and that there is a substantial likelihood that the person would carry out the threat if released." These are reasonable provisions. Far from resulting in miscarriages of justice, they will help to promote justice on behalf of witnesses, victims and the general public.

5 Gift and Inheritance Taxes (Proponent Miller)—Initiative Statute

Official Title and Summary Prepared by the Attorney General

GIFT AND INHERITANCE TAXES (Proponent Miller). INITIATIVE STATUTE. Repeals existing statutes governing gift and inheritance taxes. Prohibits imposition of gift or inheritance taxes. Reenacts state "pickup" tax on decedents' estates at rate set by schedule of credits for state death taxes under specified provisions of the United States Internal Revenue Code. Requires Legislature to provide for collection and administration of this tax. See analysis of Legislative Analyst in Ballot Pamphlet for discussion of effective date of this measure. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: Reduce state inheritance and gift tax revenues by about $130 million in 1982–83, by about $365 million in 1983–84, and by higher amounts thereafter. Save state approximately $6 million annually in administrative costs. Under existing law, reductions in state revenue would result in corresponding reductions in amount of fiscal relief provided by state to local governments and schools.

Analysis by the Legislative Analyst

Background:

California has levied a tax on inheritances since 1893 and a tax on gifts since 1939.

The state's *inheritance* tax is a tax on the right to receive or inherit property, and is based on the value of the inheritance received by each heir or beneficiary. This is in contrast to the federal tax on estates left by deceased persons. The federal tax is based on the total value of the decedent's estate, regardless of how many beneficiaries there are.

The state's *gift* tax is a tax on the value of gifts and transfers made by an individual, and is based on the amount received each year by each recipient.

The last major revisions in the State Inheritance and Gift Tax Laws were enacted in 1980 (Chapter 634). Chapter 634 applies to (1) the estates of persons who die, or (2) gifts made, on or after January 1, 1981. It made the following changes in the Inheritance and Gift Tax Laws:

1. It generally exempts from inheritance and gift taxes *all* property transfers between spouses. Under prior law, gifts or inheritances in excess of $60,000 were subject to taxation, with certain exclusions.
2. It increases the amount of an inheritance or gift which is *exempt* from taxation, for all other classes of beneficiaries, as shown in Table 1.
3. It allows qualified farms and closely held businesses, under certain conditions, to be valued on the basis of their current use, rather than their fair market value as under prior law.
4. It allows an estate to be distributed to the heirs or beneficiaries before the tax due on it has been collected. Under prior law, estates generally could not be distributed until the tax had been paid.

Table 1
Amounts Exempt from Inheritance and Gift Taxes

	Exemption	
Class of beneficiary	*Current law Chapter 634*	*Prior law*
Class A:		
Minor child	$40,000	$12,000
Orphan child under age 18	10,000[a]	5,000[a]
Other lineal relation (parent, adult child, grandchild)	20,000	5,000
Class B:		
Brother, sister, or their descendants	10,000	2,000
Spouse of son or daughter	10,000	2,000
Class C:		
All others	3,000	300

[a] Exemption is multiplied by the number of years the child is under age 21. However, to be eligible for the exemption the orphan child must be under age 18.

Chapter 634 did not change either the tax brackets or tax rates for the inheritance and gift taxes. The tax *rates*, which are the same for both the inheritance and gift taxes, range from 3 percent to 24 percent, depending on the value of the property and beneficiary class. Class A beneficiaries (a son or daughter) are subject to the lowest tax rates, which range from 3 percent on transfers of up to $25,000 to 14 percent on transfers valued over $400,000. Class C beneficiaries (a nonrelative) are subject to the highest tax rates, which range from 10 percent on transfers up to $25,000 to 24 percent on transfers valued over $400,000.

Proposal:

Inheritance and Gift Tax. This measure would (1) repeal the current Inheritance and Gift Tax Laws and (2) prohibit the imposition of any gift tax or inheritance tax (except for the "pickup" tax discussed below) on any transfer of property made on or after January 1, 1981. However, according to Legislative Counsel, this measure could not become effective until the day after it is approved by the voters. Thus, if this measure were approved at the June 1982 primary election, it would be effective only in the case of deaths occurring or gifts made on or after its effective date (the day after the election).

California Estate ("Pickup") Tax. Under the Federal Estate Tax Law a taxpayer can reduce his or her tax

liability, up to certain limits, by the amount of the taxpayer's state death tax liability.

This measure would require the state to levy a California estate tax (sometimes called "pickup tax") equal to the maximum federal credit allowable. This measure also would require the Legislature to provide for the collection and administration of that tax. The effect of this provision would be to provide the state a portion of the estate taxes which would otherwise go to the federal government. A taxpayer's *total* combined state and federal tax would not be increased under this provision, because the California estate tax would be offset against the federal tax.

Fiscal Impact:

State Revenue Loss. During the 1981–82 fiscal year the state will collect about $445 million from the inheritance tax, under existing law. Assuming this measure becomes effective in June of 1982, it would *reduce* state inheritance revenues by about $110 million in fiscal year 1982–83 and by $340 million in 1983–84. (The full impact of the measure, however, would not occur until fiscal year 1985–86, because there is a time lag between the date of death and when the resulting inheritance taxes are paid.)

In addition, by eliminating the state gift tax, this measure would reduce state gift tax revenues by about $20 million in 1982–83, $25 million in 1983–84, and increasing amounts thereafter. The eventual loss will depend on the effects which recent changes in federal law will have on gift giving and will probably be above $30 million annually.

In summary, the adoption of the measure would reduce state inheritance and gift tax revenues by about $130 million in 1982–83, by about $365 million in 1983–84, and by higher amounts thereafter.

Savings in State Administrative Costs. The State Controller estimates that this measure would save the state approximately $6 million annually in administrative costs, once the full impact is felt.

Reduction in State Aid to Local Governments. Under existing law (Chapter 282, Statutes of 1979) the reduction in State General Fund revenues caused by this measure would result in a corresponding reduction in the amount of fiscal relief provided by the state to local governments and schools, beginning in 1982–83.

Text of Proposed Law

This initiative measure is submitted to the people in accordance with the provisions of Article II, Section 8 of the Constitution.

This initiative measure expressly repeals parts of the Revenue and Taxation Code and adds a new part thereto; therefore, new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SECTION 1. Part 8 (commencing with Section 13301) of Division 2 of the Revenue and Taxation Code is repealed.

[The text of Part 8 is also repealed by Proposition 6.]

SEC. 2. Part 8 (commencing with Section 13301) is added to Division 2 of the Revenue and Taxation Code, to read:

PART 8. FEDERAL CREDIT TAX

13301. Neither an inheritance tax nor a gift tax shall be imposed on any transfer made and completed on or after January 1, 1981. However, a tax shall be imposed on the estate of decedents dying on and after January 1, 1981, at the same rate as the schedule of credits for state death taxes under subdivision (b) of Section 2011 of the Internal Revenue Code of 1954.

13302. The Legislature shall provide for the collection and administration of the tax imposed by Section 13301.

SEC. 3. Part 9 (commencing with Section 15101) of Division 2 of the Revenue and Taxation Code is repealed.

[The text of Part 9 is also repealed by Proposition 6.]

A summary of the repealed texts of Part 8 and Part 9 appears on pages 52–54.

A copy of the complete text of the Gift and Inheritance Tax laws repealed by both Proposition 5 and Proposition 6 may be obtained from the Secretary of State's office or local county clerk or registrar of voters' office.

If provisions of two or more measures approved at the same election conflict, those of the measure receiving the most affirmative votes shall take effect.

5 Gift and Inheritance Taxes (Proponent Miller)—Initiative Statute

Argument in Favor of Proposition 5

Proposition 5 completely eliminates California inheritance taxes, which now range from 3 to 24 percent of a person's estate. It also eliminates gift taxes. Presently, the state law creates a triple taxation of your property. During your lifetime, you pay income taxes, sales taxes, real estate taxes, and more; the inheritance tax is a retaxing of these same assets. This is *in addition* to the federal estate tax. Enough is enough!

As a result of soaring inflation, the inheritance tax is striking hardest at middle-income families who have worked all their lives to pay off their homes and acquire savings. In order to pay the excessive inheritance tax, beneficiaries are often required to sell assets such as homes, farms or family businesses. Is it necessary for the government to tax the family's assets again, just when a beneficiary, such as a child, needs these assets the most?

Proposition 5 repeals the inheritance and gift tax, but retains a small estate tax. This is necessary so that California will not forfeit any money to the federal government. The federal law provides that it will share its federal estate taxes with a state *only if* the state has an estate tax; if a state does not have an estate tax the federal government will keep all of the tax. Under this proposition the estate tax is *not* an additional tax on individuals, it merely requires the federal government to share its revenues with California.

In response to this people's initiative, the California Legislature and Governor attempted a diversionary action to dilute the effect of the measure. The Sacramento politicians passed a bill that will exempt surviving spouses from inheritance taxes and that will raise the exemption rates for other beneficiaries. In spite of that action, inheritance taxes will only be reduced 27 percent. Proposition 5 will eliminate *all* state inheritance tax.

If this proposition does not pass, there will be nothing to prevent the Sacramento politicians from reimposing the inheritance tax on surviving spouses. If this proposition does pass, as provided in the California Constitution, the Legislature will be prohibited from reimposing the tax *without* the consent of the voters.

There is another initiative on this ballot that also eliminates inheritance and gift taxes. Although it qualified after this proposition, it will provide the same tax relief. The Legislative Counsel's office has said that both initiatives are constitutional and that both of them will be effective the day after the election. We urge you to vote for both propositions and eliminate California's excessive inheritance and gift taxes.

Vote *FOR* Proposition 5: Vote to eliminate California's excessive inheritance and gift taxes.

Rebuttal to Argument in Favor of Proposition 5

Don't be fooled by the claim that beneficiaries are required to sell homes, farms or businesses to pay California's inheritance tax. Even when there is a tax liability, the law which took effect last year contains special provisions protecting family homes, farms and businesses. Payments may be deferred 10 years—even 15 years in some cases. This law has reduced significantly the number of heirs liable for this tax and the amount they pay.

The federal estate tax has been the burdensome one, and now that, too, has been changed. The tax owed is much less and within five years will affect only the wealthiest families. Together, the new federal and state inheritance tax laws have substantially eased the impact on the average family.

These claims of nonexistent hardships are designed to divert attention from the fact that REPEAL OF THE INHERITANCE TAX IS TAX RELIEF FOR THE WEALTHY. Remember, 50 percent of the benefit would go to only 5.7 percent of beneficiaries. Most Californians will never have to pay this tax.

Far from double taxation, the inheritance tax is often the *only* tax on unearned accumulated wealth. It is a reasonable tax which increases as the amount inherited increases. This tax break for those who need it least should be rejected. Its cost would be borne by all citizens either in underfunded public services or in some other, less fair, tax.

Gift and Inheritance Taxes (Proponent Miller)— Initiative Statute

5

Argument Against Proposition 5

We, the undersigned, strongly recommend a "no" vote on this measure to repeal California's inheritance and gift taxes.

There is no "good" tax, but some taxes are fairer than others, based on ability to pay. Inheritance and gift taxes are proportional to the amount inherited and as such are among the fairest we have. The benefits of repealing them would be concentrated in a well-to-do minority of taxpayers. Fifty percent of the tax break would go to only 5.7 percent of beneficiaries.

In the past few years, taxpayers in California have received billions and billions of dollars in tax relief, not just from Proposition 13, but from legislation indexing the income tax, changes in the inheritance and gift tax laws and elimination of the business inventory tax. The financial situation of the state is critical. Passage of Proposition 5 would mean an estimated loss of $400 million in its first full year. This loss combined with the reduction in federal funds to California would intensify the state's fiscal crisis.

Just last year important changes took effect in California's inheritance and gift tax laws. These substantially reduced the amount heirs must pay and eased the manner of payment. *Surviving spouses are now excluded from paying the tax,* and the exemption for all other heirs has been increased. Sixty-five percent of heirs pay no tax under the new law. Any tax owed may be paid after an estate's assets are distributed. Special provisions protect family homes, family farms and closely held businesses. All payments may be extended over a longer time period.

The federal estate tax has been eased as well. The estate exemption will gradually increase until within five years only estates over $600 thousand will be taxed. Surviving spouses are relieved of paying any federal estate taxes. The combined federal and state inheritance taxes are no longer the burden they once were.

The inheritance tax is an old and accepted tax in this country. California's was enacted in 1893. The purpose was to prevent the concentration of wealth in a relatively few families.

Two years ago the voters of California defeated an initiative to cut the income tax in half. They recognized the proposal as tax relief for the few which would be paid for by every resident of the state in reduced services or in other less equitable taxes. This same argument applies to the proposition to repeal the inheritance and gift taxes.

Vote "no." Keep this fair and needed revenue source.

Rebuttal to Argument Against Proposition 5

In response to our initiative, the Legislature passed a bill that postpones the time an estate is taxed by an average of eight years (the life expectancy of a surviving spouse). The bill did little to protect the family home, business or farm from being taxed out of existence when it is inherited by the children.

There is confusion regarding our proposition and Proposition 6. The author of Proposition 6 (who is not an attorney) claims that our proposition would allow the Legislature to reinstate the inheritance tax at any time under a different name. This is simply not true, as the California Constitution, Article II, Section 10, specifically declares that an initiative may not be reversed without being resubmitted to a vote of the people. To place this language in our proposition would be simply restating existing constitutional law and is unnecessary.

Furthermore, on September 12, 1980, the California Legislative Counsel's office ruled that our initiative is constitutional and would be effective prospectively the day after the election.

Our initiative petitions were already filed with the appropriate state agency before the author of Proposition 6 even began to distribute his initiative petitions. Perhaps his untrue claims regarding the unconstitutionality of our initiative stem from his need to justify his duplicate and very expensive campaign.

The general public, not special interest groups, contributed their time and money to this campaign. They want to eliminate the graverobber's tax. Vote "yes" on Proposition 5.

6 Gift and Inheritance Taxes (Proponent Rogers)—Initiative Statute

Official Title and Summary Prepared by the Attorney General

GIFT AND INHERITANCE TAXES (Proponent Rogers). INITIATIVE STATUTE. Repeals existing statutes governing gift and inheritance taxes. Prohibits imposition of such taxes by state or local government. Reenacts state "pickup" tax on decedents' estates measured by maximum credit against federal estate taxes allowed by federal law and provides that combined estate tax liability to California and United States cannot exceed tax liability to United States for property located in California if state tax not imposed. Requires Legislature provide for collection and administration of this tax. See analysis of Legislative Analyst in Ballot Pamphlet for discussion of effective date of this measure. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: Reduce state inheritance and gift tax revenues by about $130 million in 1982–83, by about $365 million in 1983–84, and by higher amounts thereafter. Save state approximately $6 million annually in administrative costs. Under existing law, reductions in state revenue would result in corresponding reductions in amount of fiscal relief provided by state to local governments and schools.

Analysis by the Legislative Analyst

Background:

California has levied a tax on inheritances since 1893 and a tax on gifts since 1939.

The state's *inheritance* tax is a tax on the right to receive or inherit property, and is based on the value of the inheritance received by each heir or beneficiary. This is in contrast to the federal tax on estates left by deceased persons. The federal tax is based on the total value of the decedent's estate, regardless of how many beneficiaries there are.

The state's *gift* tax is a tax on the value of gifts and transfers made by an individual, and is based on the amount received each year by each recipient.

The last major revisions in the State Inheritance and Gift Tax Laws were enacted in 1980 (Chapter 634). Chapter 634 applies to (1) the estates of persons who die, or (2) gifts made, on or after January 1, 1981. It made the following changes in the Inheritance and Gift Tax Laws:

1. It generally exempts from inheritance and gift taxes *all* property transfers between spouses. Under prior law, gifts or inheritances in excess of $60,000 were subject to taxation, with certain exclusions.
2. It increases the amount of an inheritance or gift which is *exempt* from taxation, for all other classes of beneficiaries, as shown in Table 1.
3. It allows qualified farms and closely held businesses, under certain conditions, to be valued on the basis of their current use, rather than their fair market value as under prior law.
4. It allows an estate to be distributed to the heirs or beneficiaries before the tax due on it has been collected. Under prior law, estates generally could not be distributed until the tax had been paid.

Table 1
Amounts Exempt from Inheritance and Gift Taxes

	Exemption	
Class of beneficiary	*Current law Chapter 634*	*Prior law*
Class A:		
Minor child	$40,000	$12,000
Orphan child under age 18	10,000[a]	5,000[a]
Other lineal relation (parent, adult child, grandchild)	20,000	5,000
Class B:		
Brother, sister, or their descendants	10,000	2,000
Spouse of son or daughter	10,000	2,000
Class C:		
All others	3,000	300

[a] Exemption is multiplied by the number of years the child is under age 21. However, to be eligible for the exemption the orphan child must be under age 18.

Chapter 634 did not change either the tax brackets or tax rates for the inheritance and gift taxes. The tax *rates*, which are the same for both the inheritance and gift taxes, range from 3 percent to 24 percent, depending on the value of the property and beneficiary class. Class A beneficiaries (a son or daughter) are subject to the lowest tax rates, which range from 3 percent on transfers of up to $25,000 to 14 percent on transfers valued over $400,000. Class C beneficiaries (a nonrelative) are subject to the highest tax rates, which range from 10 percent on transfers up to $25,000 to 24 percent on transfers valued over $400,000.

Proposal:

Inheritance and Gift Tax. This measure would repeal the state's current Inheritance and Gift Tax Laws. Except for the "pickup" tax which is described below, it would prohibit the state from imposing any tax on gifts made, or property transferred by reason of deaths occurring on or after it becomes effective. This measure also would prohibit local governments from imposing such taxes. (No such taxes are levied currently by local governments.) Finally, the measure would prohibit the Legislature, without approval of a majority of the electors voting in a statewide election, from changing any

provisions of this act, except to provide for the collection and administration of the California estate ("pickup") tax. Thus, if this measure were approved at the June 1982 primary election, it would be effective only in the case of deaths occurring or gifts made on or after its effective date (the day after the election).

California Estate ("Pickup") Tax. Under the Federal Estate Tax Law, a taxpayer can reduce his or her tax liability, up to certain limits, by the amount of the taxpayer's state death tax liability.

This measure would require the state to levy a California estate tax (sometimes called "pickup tax") equal to the maximum federal credit allowable. This measure also would require the Legislature to provide for the collection and administration of that tax. The effect of this provision would be to provide the state a portion of the estate taxes which would otherwise go to the federal government. A taxpayer's *total* combined state and federal tax would not be increased under this provision, because the California estate tax would be offset against the federal tax.

Fiscal Impact:

State Revenue Loss. During the 1981–82 fiscal year the state will collect about $445 million from the inheritance tax, under existing law. Assuming this measure becomes effective in June of 1982, it would *reduce* state inheritance tax revenues by about $110 million in fiscal year 1982–83, and by about $340 million in 1983–84. (The full impact of the measure would not occur until fiscal year 1985–86 because there is a time lag between the date of death and when the resulting inheritance taxes are paid.)

In addition, by eliminating the state gift tax, this measure would reduce state gift tax revenues by about $20 million in 1982–83, $25 million in 1983–84, and increasing amounts thereafter. The eventual loss will depend on the effects which recent changes in federal law will have on gift giving and will probably be above $30 million annually.

In summary, the adoption of the measure would reduce state inheritance and gift tax revenues by about $130 million in 1982–83, by about $365 million in 1983–84, and by higher amounts thereafter.

Savings in State Administrative Costs. The State Controller estimates that this measure would save the state approximately $6 million annually in administrative costs, once the full impact is felt.

Reduction in State Aid to Local Governments. Under existing law (Chapter 282, Statutes of 1979), the reduction in State General Fund revenues caused by this measure would result in a corresponding reduction in the amount of fiscal relief provided by the state to local governments and schools, beginning in 1982–83.

Text of Proposed Law

This initiative measure is submitted to the people in accordance with the provisions of Article II, Section 8 of the Constitution.

This initiative measure expressly repeals parts of the Revenue and Taxation Code and adds a new part thereto; therefore, new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

Section 1. Part 8 (commencing with Section 13301) of Division 2 of the Revenue and Taxation Code is repealed.

[The text of Part 8 is also repealed by Proposition 5.]

Section 2. Part 9 (commencing with Section 15101) of Division 2 of the Revenue and Taxation Code is repealed.

[The text of Part 9 is also repealed by Proposition 5.]

Section 3. Part 8 (commencing with Section 13301) is added to Division 2 of the Revenue and Taxation Code, to read:

Part 8. Prohibition of Gift and Death Taxes

13301. Neither the state nor any political subdivision of the state shall impose any gift, inheritance, succession, legacy, income, or estate tax, or any other tax, on gifts or on the estate or inheritance of any person or on or by reason of any transfer occurring by reason of a death.

13302. Notwithstanding the provisions of Section 13301, whenever a federal estate tax is payable to the United States, there is hereby imposed a California estate tax equal to the portion, if any, of the maximum allowable amount of the Credit for State Death Taxes, allowable under the applicable federal estate tax law, which is attributable to property located in the State of California. However, in no event shall the estate tax hereby imposed result in a total death tax liability to the State of California and the United States in excess of the death tax liability to the United States which would result if this section were not in effect.

13303. The Legislature shall provide for the collection and administration of the tax imposed by Section 13302.

Section 4. This act shall become operative as of the date of passage hereof, and shall apply to the estates of those persons dying on or after such date, to transfers occurring by reason of a death occurring on or after such date, and to gifts made or completed on or after such date. Any liability for inheritance or gift tax incurred prior to such date shall be determined and enforced under the applicable law in effect on the date of death or date of completed transfer as fully and to the same extent as if the repeals of Parts 8 and 9 of Division 2 of the Revenue and Taxation Code had not been made.

Section 5. Except to provide for the collection and administration of the tax imposed by Section 13302 of the Revenue and Taxation Code in a manner not inconsistent with this act, the Legislature shall not amend or repeal this act other than by an enactment which becomes effective only when approved by a majority of the electors voting thereon in a statewide election.

Section 6. If any section, part, clause, or phrase hereof is for any reason held to be invalid, the remaining provisions of this act shall not be affected but shall remain in full force and effect.

A summary of the repealed texts of Part 8 and Part 9 appears on pages 52–54.

A copy of the complete text of the Gift and Inheritance Tax laws repealed by both Proposition 5 and Proposition 6 may be obtained from the Secretary of State's office or local county clerk or registrar of voters' office.

If provisions of two or more measures approved at the same election conflict, those of the measure receiving the most affirmative votes shall take effect.

6 Gift and Inheritance Taxes (Proponent Rogers)—Initiative Statute

Argument in Favor of Proposition 6

Your vote for Proposition 6 will abolish the inheritance tax—the most cruel and unfair tax of all. Fourteen states have already repealed theirs.

The inheritance tax is based on the repulsive assumption that people have no right to inherit and government should tax inheritances to "redistribute the wealth." Today, the inheritance tax forces family farms and businesses to be sold to pay the tax.

A middle-income family, already strapped to pay attorney's fees, burial costs, tax preparer's and tax referee's fees, has difficulty coming up with the cash to pay the state. Most properties and assets confiscated by the inheritance tax have been fully taxed already. Children are robbed of their inheritance. Middle-income Californians helplessly watch the family home, family business, family farm or ranch forced onto the auction block. Some of our privately owned, affordable housing is vanishing due to this tax. Small businesses lose working capital that creates jobs and allows business expansion. Family savings are withdrawn to pay the inheritance tax, which reduces banks' funds for home loans.

Abolishing the inheritance tax will improve the economy, and jobs will be created. People will get off unemployment and welfare and begin earning wages. The state will collect income and sales taxes from them. The inheritance tax provides roughly 2 percent of state taxes. This minor revenue loss will be made up by taxes paid by these new workers.

An Assembly committee refused to repeal this tax. Instead, the Legislature passed a measure in 1980 which they claim is a major reform. That "reform" simply repealed the inheritance tax on properties left by one spouse to another; but joint assets held by man and wife should never have been considered an "inheritance." Furthermore, within an average of eight years, the surviving spouse dies and the inheritance tax takes its toll anyhow.

Proposition 5 is a similar measure with wording which may create many problems only resolved by lengthy court proceedings. While waiting for a court decision, the citizens of California would continue for years to suffer the effects of this death tax.

Proposition 5 is okay as far as it goes; but it only repeals the inheritance and gift taxes. Proposition 6 is far superior because it not only repeals the inheritance and gift taxes, but also prohibits their reenactment under a different name, such as a tax on transfers, succession, legacy, estate or any other tax due to a transfer of property because someone dies. Both propositions can be passed without either hurting the other. Since Proposition 6 is carefully written to withstand challenges in the courts and to block legislative shenanigans to reimpose the tax under another name, it is vital that Proposition 6 be passed. It will take effect immediately. This double and triple taxation can never be reinstated by a greedy government.

Proponents include the California Farm Bureau, California Chamber of Commerce, California Associatic of Life Underwriters, and many others.

Rebuttal to Argument in Favor of Proposition 6

Identical in intent to Proposition 5, this, too, should be rejected.

Claims of forced sales of homes, farms and businesses to satisfy inheritance tax liability do not reflect reality and should fool no one. There are no properties "confiscated" nor children "robbed." Even when there is a tax liability (and most Californians now will never have to pay this tax) the law which took effect last year contains special provisions protecting family homes, farms and businesses. The manner of payment is easier and the time may be extended 10, and even 15, years. This new law has reduced significantly the number of heirs liable for this tax and the amount they pay.

Together, the new federal and state inheritance tax laws have substantially eased the impact on the average family.

These claims of nonexistent hardships are designed to divert attention from the fact that REPEAL OF THE INHERITANCE TAX IS TAX RELIEF FOR THE WEALTHY. Remember, 50 percent of the benefit would go to only 5.7 percent of beneficiaries.

Neither does this proposition have anything to do with solving our problems of unemployment, welfare or housing. It has to do only with providing a tax benefit for the few, paid for by the many.

The inheritance tax is a reasonable tax which increases as the ability to pay increases.

Vote "no" on this tax break for those who need it least. Its cost would be borne by all citizens.

We, the undersigned, strongly recommend a "no" vote on this measure to repeal California's inheritance and gift taxes.

There is no "good" tax, but some taxes are fairer than others, based on ability to pay. Inheritance and gift taxes are proportional to the amount inherited and as such are among the fairest we have. The benefits of repealing them would be concentrated in a well-to-do minority of taxpayers. Fifty percent of the tax break would go to only 5.7 percent of beneficiaries.

In the past few years, taxpayers in California have received billions and billions of dollars in tax relief, not just from Propositon 13, but from legislation indexing the income tax, changes in the inheritance and gift tax laws and elimination of the business inventory tax. The financial situation of the state is critical. Passage of Proposition 6 would mean an estimated loss of $400 million in its first full year. This loss combined with the reduction in federal funds to California would intensify the state's fiscal crisis.

Just last year important changes took effect in California's inheritance and gift tax laws. These substantially reduced the amount heirs must pay and eased the manner of payment. *Surviving spouses are now excluded from paying the tax,* and the exemption for all other heirs has been increased. Sixty-five percent of heirs pay no tax under the new law. Any tax owed may be paid after an estate's assets are distributed. Special provisions protect family homes, family farms and closely held businesses. All payments may be extended over a longer time period.

The federal estate tax has been eased as well. The estate exemption will gradually increase until within five years only estates over $600 thousand will be taxed. Surviving spouses are relieved of paying any federal estate taxes. The combined federal and state inheritance taxes are no longer the burden they once were.

The inheritance tax is an old and accepted tax in this country. California's was enacted in 1893. The purpose was to prevent the concentration of wealth in a relatively few families.

Two years ago the voters of California defeated an initiative to cut the income tax in half. They recognized the proposal as tax relief for the few which would be paid for by every resident of the state in reduced services or in other less equitable taxes. This same argument applies to the proposition to repeal the inheritance and gift taxes.

Rebuttal to Argument Against Proposition 6

The leadership of an organization may take a position that is not supported by the membership. The big spenders in state government are using wolves in sheep's clothing to mislead you and preserve their taxing power. They believe all wealth belongs to government; that they're doing you a favor letting you keep a part of what you've earned. They believe in taking property away from the people that have earned it and giving it to people who have not earned it. They admit the inheritance tax is based on "redistributing the wealth." Well, the third plank in the Manifesto of the Communist Party is "Abolition of all right of inheritance." It's time we the people reminded the bureaucrats who's boss in this country.

The big spenders are trying to fool you when they tell you the inheritance tax is "a tax on the wealthy." The wealthy have their property in tax-free foundations and trusts. It's middle- and low-income Californians who are forced to sell family homes, family businesses and family farms to pay this "death tax."

Consider your family. House prices have skyrocketed and are expected to double in 10 years. Owning a home doesn't make a family wealthy, and there's no reason the state should take part of it just because someone dies.

The inheritance tax provides roughly only 2 percent of total taxes, but its burden on Californians who have just lost loved ones is often tragic. Vote YES on Proposition SIX.

7 Income Tax Indexing—Initiative Statute

Official Title and Summary Prepared by the Attorney General

INCOME TAX INDEXING. INITIATIVE STATUTE. Graduated state personal income tax brackets are adjusted annually by applying an "inflation adjustment factor" determined by use of the percent that the California Consumer Price Index has changed. This is referred to as "indexing." Under existing statutes, the full percentage change in the Index is being used for 1980 and 1981 taxable years. Beginning in 1982 and for later taxable years the Index percentage changes which exceed 3 percent will be used. This measure changes existing statutes by providing for the continued use during 1982 and taxable years thereafter of the full percentage Index changes. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: Reduce state personal income tax revenues by about $230 million in 1982–83, by about $445 million in 1983–84, and by increasing amounts thereafter. Under existing law reductions in state revenue would result in corresponding reductions in amount of fiscal relief provided by state to local governments and schools.

Analysis by the Legislative Analyst

Background:

Under the California Personal Income Tax Law, the amount of tax owed by a taxpayer depends on the person's "taxable income." Different portions of a taxpayer's taxable income are taxed at different *rates.* For example, in 1981 the first $5,700 of a married couple's taxable income was subject to a 1-percent tax rate, while income between $5,700 and $9,980 was subject to a 2-percent tax rate. The income intervals which are subject to different tax rates are called taxable income "brackets." There are 11 such brackets, each of which corresponds to a specific tax rate. These rates range from 1 to 11 percent.

Each year the levels of income at which higher tax rates apply are increased ("indexed") to compensate for inflation. In 1982, for example, the 1-percent tax rate for married couples will apply to the first $6,260 of income (rather than the first $5,700), and the 2-percent tax rate will apply to taxable income between $6,260 and $10,960 (rather than to income between $5,700 and $9,800). Thus, in this example, as a result of "indexing," taxable income between $5,700 and $6,260 in 1982 will be taxed at a 1-percent rate, rather than at a 2-percent rate. Corresponding reductions in the rate of taxation will apply to higher income levels.

California's income tax law also provides for a number of tax credits including the personal, dependent and low-income credits. (A tax credit reduces a taxpayer's tax liability on a dollar-for-dollar basis.) These credits also are "indexed" to compensate for the effect of inflation. For example, in 1981 the personal credit for a married couple was $70, and in 1982 it will be $78.

Under existing law, the California Consumer Price Index (California CPI) is used to "index" both the income tax brackets and certain tax credits. In 1980 and 1981, the tax brackets were *fully "indexed"*—that is, the levels at which higher tax rates apply were raised by the full amount of the percentage increase in the California CPI. Beginning in 1982 and indefinitely thereafter, the income tax brackets will be *partially "indexed."* Specifically, the income levels at which various tax rates apply will be raised each year by the percentage increase in the California CPI which exceeds 3 percent per year.

Since 1979, the personal, dependent and low-income credits have been fully "indexed" for inflation. Under current law, full "indexing" of those credits is to continue indefinitely.

Proposal:

This measure would amend the income tax law to require *permanent full* "indexing" of the income tax brackets starting with the 1982 income year. For example, the increase in the California CPI which is used for "indexing" is expected to be 12.8 percent in 1982. Under existing law, the income tax brackets will be increased by 9.8 percent, which is the CPI increase in California minus three percentage points. This measure would increase the tax brackets by the full rate of increase in CPI, namely 12.8 percent, in 1982. For example, the first $6,420 (rather than the first $6,260) of a married couple's taxable income would be subject to a 1-percent tax rate, while income between $6,420 and $11,260 (rather than income between $6,260 and $10,960) would be subject to the 2-percent tax rate in 1982 under "full indexing." The increases in these tax brackets in future years will depend upon the rate of inflation, as measured by the California CPI.

The impact of this bracket change on a married couple with two children and average household income (about $27,500) would be to reduce its state income taxes from $415.05 to $400.65 (computed by using average itemized deductions) for 1982. The annual tax savings would increase in future years.

This measure would *not* change the value of tax credits, because the personal, dependent and low income credits already are fully indexed under existing law.

Fiscal Impact:

Impact on State Revenues. The adoption of this initiative would reduce state personal income tax revenues by about $230 million in fiscal year 1982–83 (July

1, 1982–June 30, 1983), by about $445 million in fiscal year 1983–84 (July 1, 1983–June 30, 1984), and by increasing amounts thereafter.

Reduction in State Aid to Local Governments. Under existing law (Chapter 282, Statutes of 1979), the reduction in State General Fund revenues caused by this measure would result in a corresponding reduction in the amount of fiscal relief provided by the state to local governments and schools, beginning in fiscal year 1982–83.

(c) The tax imposed by this part is not a surtax.

(d) For each taxable year beginning on or after January 1, 1978, the Franchise Tax Board shall recompute the income tax brackets prescribed in subdivisions (a) and (b). Such computation shall be made as follows:

(1) The California Department of Industrial Relations shall transmit annually to the Franchise Tax Board the percentage change in the California Consumer Price Index for all items from June of the prior calendar year to June of the current calendar year, no later than August 1 of the current calendar year.

(2) For taxable years beginning on or after January 1, 1978, and ending on or before November 30, 1979, the Franchise Tax Board shall recompute the income tax brackets by multiplying each income bracket figure in subdivisions (a) and (b) by the inflation adjustment factor of 1.05222, the amounts of each bracket to be rounded off to the nearest ten dollars ($10).

~~(2)~~ *(3)* For taxable years *beginning on or after January 1, 1979, and* ending on or before November 30, 1980, the Franchise Tax Board shall compute an inflation adjustment factor by adding 100 percent to that portion of the percentage change figure ~~which is~~ furnished ~~to them~~ pursuant to paragraph (1) ~~of this subdivision~~ which exceeds ~~3~~ *three* percent *(3%)*, and dividing the result by 100, *the amounts of each bracket to be rounded off to the nearest ten dollars ($10).*

~~(3)~~ *(4)* For taxable years beginning ~~in~~ *on or after January 1,* 1980, and ending on or before November 30, 1982, the Franchise Tax Board shall compute an inflation adjustment factor by adding 100 percent to that portion of the percentage change figure which is furnished ~~to them~~ pursuant to paragraph (1) ~~of this subdivision,~~ and dividing the result by 100, *the amounts of each bracket to be rounded off to the nearest ten dollars ($10).*

~~(4)~~ *(5)* For taxable years beginning on and after January 1, 1982, *and thereafter,* the Franchise Tax Board shall compute an inflation adjustment factor by adding 100 percent to that portion of the percentage change figure which is furnished ~~to them~~ pursuant to paragraph (1) ~~of this subdivision which exceeds 3 percent,~~ and dividing the result by 100, *the amounts of each bracket to rounded off to the nearest ten dollars ($10)*

~~(5) For taxable years beginning on and after January 1, 1978, and ending on or before November 30, 1979, the Franchise Tax Board shall recompute the income tax brackets by multiplying each income bracket figure in subdivisions (a) and (b) by the inflation adjustment factor of 1.05222, the amounts of each bracket to be rounded off to the nearest ten dollars ($10).~~

~~(6) For each taxable year thereafter, the Franchise Tax Board shall recompute the income brackets in the same manner by multiplying the prior taxable year's income bracket figures by the appropriate inflation adjustment factor, rounded off to the nearest ten dollars ($10).~~

Sec. 2. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

Sec. 3. If any section, part, clause, or phrase hereof is for any reason held to be invalid or unconstitutional, the remaining sections shall not be affected but will remain in full force and effect.

7 Income Tax Indexing—Initiative Statute

Arguments in Favor of Proposition 7

PROTECT THE PURCHASING POWER OF YOUR INCOME.

YES ON PROPOSITION 7!

Proposition 7 will index income taxes.

Indexing means inflation alone will never again increase tax rates.

If Proposition 7 doesn't pass, *income tax rates for many Californians could double in just four years!*

Suppose your taxable family income is $15,000 one year, $16,500 the next, and inflation is 10 percent. You gain nothing in real purchasing power. You earn 10 percent more, but prices are 10 percent higher. No net gain or loss, right?

WRONG!

Without indexing your taxes would go up 28.7 percent!

Imagine, you earn 10 percent more, inflation increases prices 10 percent, and your state income tax bill goes up 28.7 percent, 18.7 percent more than necessary *for government revenues to keep up with inflation.*

So your standard of living declines even though your income keeps up with inflation!

A family with a taxable income of $15,000, whose income rises 10 percent annually while inflation is the same 10 percent, would suffer a doubling of their taxes in about four years!

Proposition 7 will permanently end this unfair inequity in California's income tax rates, but will not reduce government revenues in relation to inflation. It will keep them equal to the rate of inflation.

THE RICH ALREADY HAVE INDEXING

Wealthy taxpayers will gain little under Proposition 7. Why? Because, at high levels, income is taxed at a flat 11 percent. Hence, if a wealthy person's taxable income goes from $100,000 to $110,000 in a year he pays the same 11 percent tax on the new $10,000 as he did on the previous $100,000.

High-income taxpayers already have indexing because their tax rates remain even.

Proposition 7 does not index or reduce taxes for businesses or corporations.

WHO REALLY NEEDS INDEXING?

People who are really hurt when income taxes are not indexed are families in the $10,000 to $40,000 taxable income brackets, and single taxpayers in the $5,000 to $30,000 brackets.

In these brackets tax rates rise very rapidly, and inflation can cause enormous tax increases.

In recognition of the need of middle-income families for indexing, the Congress recently enacted *federal* indexing legislation.

WHO SUPPORTS PROPOSITION 7?

487,443 concerned Californians signed petitions to place Proposition 7 on the ballot. Small contributions averaging $2.10 were received with the petitions.

No business, union or agricultural or other special interest group funded the petition drive. It's supported solely by concerned California people, including the hundreds of thousands of families who support the citizens' California Tax Reduction Movement.

WHO OPPOSES PROPOSITION 7?

Jerry Brown vetoed indexing after it passed the Legislature nearly unanimously, even though his proposed budget says 16,000,000 Californians would benefit! Brown's budget *assumes* Proposition 7 will *fail!*

HELP DEFEND YOUR INCOME FROM INFLATION. VOTE YES ON PROPOSITION 7!

Passage of Proposition 7 is important to all California wage earners. Indexing prevents hidden tax increases caused by inflation pushing workers into higher tax brackets.

Rebuttal to Arguments in Favor of Proposition 7

The people for indexing have their facts wrong. An analysis of all sixty million returns filed in California (1973 to 1979) proves these stark facts:

1. Your tax bracket rate is *always higher* than your *actual* rate. Example: the 1979 married, $19,000 income earner ($15,000 taxable income, 5-percent tax bracket) paid only 1.6 percent.
2. The rich in the top tax bracket supposedly pay an 11-percent rate. But the facts (1979) show almost all of them actually pay only 3.3 to 7.2 percent. They have almost *half* of *all* income.
3. In 1978, 43.1 percent of all returns paid *zero* tax; 57.8 percent paid under 1 percent; 72.9 percent paid under 2 percent; 83.1 percent paid under 3 percent; these distributions are typical of *all years, even those without indexing* (1977 and earlier).
4. *Under indexing, the progressive tax system will end.* Assuming income and inflation growth rates for 1977–1982 will continue, indexing yearly will cause the 1-percent tax bracket to increase until it engulfs virtually all incomes. By 2014, the rich will pay the same rate as the poor. *By* 1995, *the personal income revenue loss in California will be* 66 percent *every year.*
5. It is false that higher tax brackets always mean less after-tax disposable income. If all 1979 taxpayers received a 10-percent income increase, *all* would experience a 9.8-percent or more growth in disposable income.
6. *A complete study of federal income tax indexing reveals that it will cause revenue losses that make current annual federal deficits of over $100 billion seem comparatively small.*

Income Tax Indexing—Initiative Statute 7

Argument Against Proposition 7

This initiative must be defeated. Make no mistake. It is unfair to every taxpayer in terms of saving taxes and in terms of providing essential services.

The State of California has suffered drastic cuts in public services. Police and fire protection have been reduced, public health has slipped dangerously low, and California was once first in per capita support of public education. It is now 44th. The additional effect of this initiative would be to increase the financial burden on the state.

The objective evidence overwhelmingly demonstrates that this indexing initiative (full CPI), in combination with the current indexing statute (CPI less 3 percent), has already produced drastic revenue losses and will continue to produce increasingly larger losses in all the years to come.

Had full CPI indexing gone into effect in 1973, by 1982 California would have experienced a 45-percent personal income revenue loss (or a loss of over $4.5 billion to the state). By 1986 the cumulative loss for the period would be over $50 billion.

One-third of the reduced revenue under indexing goes back to the federal government because of the loss of the "state tax paid" deductions on IRS tax forms. This initiative would send more of your money to the federal government and, once sent, there is no guarantee that it will return to California. However, if this same money were kept in California, it would also be spent here.

Indexing is regressive. In every year under either type of indexing, only 9 percent of the savings (that accrue relative to the previous year) goes to the poorest half of the taxpayers, while 75 percent goes to the wealthiest 25 percent.

The federal government is now debating "new federalism," and California is expected to receive $2 billion less federal money if this program is adopted by Congress. This $2 billion loss, together with a forecasted state revenue shortfall of $2–$3 billion for 1982, means $4–$5 billion less in California for services. The result will be that California will have to increase its revenue to support once federally funded programs, and this at a time when this initiative would send more of your money to Washington.

The combined effect of "new federalism," huge losses of federal money, and this initiative, will be to send your money to Washington, the bills to Sacramento, and to provide less and less services to each individual citizen.

It is imperative that this initiative be defeated.

Rebuttal to Argument Against Proposition 7

Jerry Brown vetoed indexing legislation virtually identical to Proposition 7, after both houses of the Legislature voted for it *unanimously.*

That is why taxpayers face tax increases caused solely by inflation and must enact Proposition 7.

We are talking about major tax increases! According to the State Board of Equalization, assuming 10 percent inflation, a family with a taxable income of $15,000 faces the doubling of their taxes in less than four years if Proposition 7 fails!

The opponents say the state will lose revenues of $2 billion, $4 billion, $5 billion and $50 billion. This is nonsense. Read the state's own fiscal impact report, appearing in the summary printed in this booklet—$200 million in 1982–83! Obviously the opponents are attempting to deceive you.

The real question, though, is who will pay this $200 million to the state, and why! It will be paid by ordinary taxpayers. And it will be paid solely because inflation had pushed taxpayers into unfairly higher tax brackets!

Proposition 7 only affects the portion of income taxes paid on the first $22,140 earned on single returns and the first $44,280 on joint returns. Hence, when the opponents say that Proposition 7 benefits only the "wealthy," they're only trying to deceive voters.

If you believe your income taxes should go up because of inflation, then you should vote no. But if you believe inflation should not cause you to pay higher taxes . . .

VOTE YES ON PROPOSITION 7.

8 Criminal Justice—Initiative Statutes and Constitutional Amendment

Official Title and Summary Prepared by the Attorney General

CRIMINAL JUSTICE. INITIATIVE STATUTES AND CONSTITUTIONAL AMENDMENT. Amends Constitution and enacts several statutes concerning procedural treatment, sentencing, release, and other matters for accused and convicted persons. Includes provisions regarding restitution to victims from persons convicted of crimes, right to safe schools, exclusion of relevant evidence, bail, use of prior felony convictions for impeachment purposes or sentence enhancement, abolishing defense of diminished capacity, use of evidence regarding mental disorder, proof of insanity, notification and appearance of victims at sentencing and parole hearings, restricting plea bargaining, Youth Authority commitments, and other matters. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: As the fiscal effect would depend on many factors that cannot be predicted, the net fiscal effect of this measure cannot be determined with any degree of certainty. However, approval of the measure would result in major state and local costs. The measure could: increase local administration costs; increase state administrative costs; increase claims against the state and local governments relating to enforcement of the right to safe schools; increase school security costs to provide safe schools; increase the cost of operating county jails by increasing the jail populations; increase court costs; and increase the cost of operating the state's prison system by increasing the prison population (estimated to be about $47 million increased annual prison operating costs and $280 million prison construction costs based on various assumptions).

Analysis by the Legislative Analyst

Background:

The California criminal justice system is governed by the State Constitution, by statutes enacted by the Legislature and the people, and by court rulings.

Under the criminal justice system, persons convicted of *misdemeanors* may be fined or sentenced to a county jail term, or both. Those convicted of *felonies* may be fined in some cases, sentenced to state prison, or (if they were under 21 years of age at the time they were apprehended) committed to the Youth Authority, or both fined and imprisoned. For some crimes, a person may receive "probation" in lieu of a prison sentence or a fine.

Proposal:

This initiative proposes many changes in the State Constitution and statutory law that would alter criminal justice procedures and punishments and constitutional rights. The major changes are summarized below.

Restitution. Under existing law, victims of crime are not automatically entitled to receive "restitution" from the person convicted of the crime. (Restitution would involve, for example, replacement of stolen or damaged property, or reimbursement for costs that the victim incurred as a result of the crime.) In some cases, however, the courts release a convicted person on probation, on the condition that restitution be provided to the victim or victims.

This measure would grant crime victims who suffer losses a constitutional right to receive restitution. Except in unusual cases, convicted persons would be required to make restitution to all of their victims who suffer losses. The extent to which restitution would be made would depend on how many convicted persons have or acquire sufficient assets to make restitution.

The Legislature would be responsible for adopting laws to implement this section of the measure.

Safe Schools. The Constitution currently provides that all people have the inalienable right of "pursuing and obtaining safety, happiness, and privacy." In addition, statutory law prohibits various acts upon school grounds which disturb the peace of students or staff, or which disrupt the peaceful conduct of school activiti This measure would add a section to the State Consti tion declaring that students and staff of public elementary and secondary schools have the "inalienable right to attend campuses which are safe, secure, and peaceful."

Evidence. Under current law, certain evidence is not permitted to be presented in a criminal trial or hearing. For example, evidence obtained through unlawful eavesdropping or wiretapping, or through unlawful searches of persons or property, cannot be used in court. This measure generally would allow most relevant evidence to be presented in criminal cases, subject to such exceptions as the Legislature may in the future enact by a two-thirds vote. The measure could not affect *federal* restrictions on the use of evidence.

Bail. Under the State Constitution and statutory law, the courts generally must release on bail all persons accused of committing a crime, while they await trial. The courts may deny bail *only* for those who are accused of felonies punishable by death if the court determines that the proof of guilt is evident or the presumption of guilt is great.

In fixing the amount of bail, courts are required by statute to consider the seriousness of the offense with which the person is charged, the defendant's previous criminal record and the probability that the defendant will appear at the trial or hearings of the case. The State Constitution prohibits courts from setting "excessi bail.

The courts also may allow those accused of commit-

Text of Proposed Law

This initiative measure is submitted to the people in accordance with the provisions of Article II, Section 8 of the Constitution.

This initiative measure expressly repeals and adds existing provisions of the Constitution, and adds provisions to the Penal Code and the Welfare and Institutions Code; therefore, provisions proposed to be deleted are printed in ~~strikeout type~~ and new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SEC. 1. This amendment shall be known as "The Victims' Bill of Rights".

SEC. 2. Section 12 of Article I of the Constitution is repealed.

~~SEC. 12. A person shall be released on bail by sufficient sureties, except for capital crimes when the facts are evident or the presumption great. Excessive bail may not be required.~~

~~A person may be released on his or her own recognizance in the court's discretion.~~

SEC. 3. Section 28 is added to Article I of the Constitution, to read:

SEC. 28. (a) The People of the State of California find and declare that the enactment of comprehensive provisions and laws ensuring a bill of rights for victims of crime, including safeguards in the criminal justice system to fully protect those rights, is a matter of grave statewide concern.

The rights of victims pervade the criminal justice system, encompassing not only the right to restitution from the wrongdoers for financial losses suffered as a result of criminal acts, but also the more basic expectation that persons who commit felonious acts causing injury to innocent victims will be appropriately detained in custody, tried by the courts, and sufficiently punished so that the public safety is protected and encouraged as a goal of highest importance.

Such public safety extends to public primary, elementary, junior high, and senior high school campuses, where students and staff have the right to be safe and secure in their persons.

To accomplish these goals, broad reforms in the procedural treatment of accused persons and the disposition and sentencing of convicted persons are necessary and proper as deterrents to criminal behavior and to serious disruption of people's lives.

(b) Restitution. It is the unequivocal intention of the People of the State of California that all persons who suffer losses as a result of criminal activity shall have the right to restitution from the persons convicted of the crimes for losses they suffer.

Restitution shall be ordered from the convicted persons in every case, regardless of the sentence or disposition imposed, in which a crime victim suffers a loss, unless compelling and extraordinary reasons exist to the contrary. The Legislature shall adopt provisions to implement this section during the calendar year following adoption of this section.

(c) Right to Safe Schools. All students and staff of public primary, elementary, junior high and senior high schools have the inalienable right to attend campuses which are safe, secure and peaceful.

(d) Right to Truth-in-Evidence. Except as provided by statute hereafter enacted by a two-thirds vote of the membership in each house of the Legislature, relevant evidence shall not be excluded in any criminal proceeding, including pretrial and post conviction motions and hearings, or in any trial or hearing of a juvenile for a criminal offense, whether heard in juvenile or adult court. Nothing in this section shall affect any existing statutory rule of evidence relating to privilege or hearsay, or Evidence Code, Sections 352, 782 or 1103. Nothing in this section shall affect any existing statutory or constitutional right of the press.

(e) Public Safety Bail. A person may be released on bail by sufficient sureties, except for capital crimes when the facts are evident or the presumption great. Excessive bail may not be required. In setting, reducing or denying bail, the judge or magistrate shall take into consideration the protection of the public, the seriousness of the offense charged, the previous criminal record of the defendant, and the probability of his or her appearing at the trial or hearing of the case. Public safety shall be the primary consideration.

A person may be released on his or her own recognizance in the court's discretion, subject to the same factors considered in setting bail. However, no person charged with the commission of any serious felony shall be released on his or her own recognizance.

Before any person arrested for a serious felony may be released on bail, a hearing may be held before the magistrate or judge, and the prosecuting attorney shall be given notice and reasonable opportunity to be heard on the matter.

When a judge or magistrate grants or denies bail or release on a person's own recognizance, the reasons for that decision shall be stated in the record and included in the court's minutes.

(f) Use of Prior Convictions. Any prior felony conviction of any person in any criminal proceeding, whether adult or juvenile, shall subsequently be used without limitation for purposes of impeachment or enhancement of sentence in any criminal proceeding. When a prior felony conviction is an element of any felony offense, it shall be proven to the trier of fact in open court.

(g) As used in this article, the term "serious felony" is any crime defined in Penal Code, Section 1192.7(c).

SEC. 4. *Diminished Capacity; Insanity.* Section 25 is added to the Penal Code, to read:

25. (a) The defense of diminished capacity is hereby abolished. In a criminal action, as well as any juvenile court proceeding, evidence concerning an accused person's intoxication, trauma, mental illness, disease, or defect shall not be admissible to show or negate capacity to form the particular purpose, intent, motive, malice aforethought, knowledge, or other mental state required for the commission of the crime charged.

(b) In any criminal proceeding, including any juvenile court proceeding, in which a plea of not guilty by reason of insanity is entered, this defense shall be found by the trier of fact only when the accused person proves by a preponderance of the evidence that he or she was incapable of knowing or understanding the nature and quality of his or her act and of distinguishing right from wrong at the time of the commission of the offense.

(c) Notwithstanding the foregoing, evidence of diminished capacity or of a mental disorder may be considered by the court only at the time of sentencing or other disposition or commitment.

(d) The provisions of this section shall not be amended by the Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.

SEC. 5. *Habitual Criminals.* Section 667 is added to the Penal Code, to read:

667. (a) Any person convicted of a serious felony who previously has been convicted of a serious felony in this state or of any offense committed in another jurisdiction which includes all of the elements of any serious felony, shall receive, in addition to the sentence imposed by the court for the present offense, a five-year enhancement for each such prior conviction on charges brought and tried separately. The terms of the present offense and each enhancment shall run consecutively.

(b) This section shall not be applied when the punishment imposed under other provisions of law would result in a longer term of imprisonment. There is no requirement of prior incarceration or commitment for this section to apply.

(c) The Legislature may increase the length of the enhancement of sentence provided in this section by a statute passed by majority vote of each house thereof.

(d) As used in this section "serious felony" means a serious felony listed in subdivision (c) of Section 1192.7.

(e) The provisions of this section shall not be amended by the Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.

SEC. 6. *Victim's Statements; Public Safety Determination.*

(a) Section 1191.1 is added to the Penal Code, to read:

1191.1 The victim of any crime, or the next of kin of the victim if the victim has died, has the right to attend all sentencing proceedings under this chapter and shall be given adequate notice by the probation officer of all sentencing proceedings concerning the person who committed the crime.

The victim or next of kin has the right to appear, personally or by counsel, at the sentencing proceeding and to reasonably express his or her views concerning the crime, the person responsible, and the need for restitution. The court in imposing sentence shall consider

Arguments in Favor of Proposition 8

It is time for the people to take decisive action against violent crime. For too long our courts and the professional politicians in Sacramento have demonstrated more concern with the rights of criminals than with the rights of innocent victims. This trend must be reversed. By voting "yes" on the Victims' Bill of Rights you will restore balance to the rules governing the use of evidence against criminals, you will limit the ability of violent criminals to hide behind the insanity defense, and you will give us a tool to stop extremely dangerous offenders from being released on bail to commit more violent crimes. Your action is as vital and necessary today as it was in 1978 when I urged Californians to take property taxes into their own hands and pass Proposition 13. If you believe as I do that the first responsibility of our criminal justice system is to protect the innocent, then I urge you to vote "yes" on Proposition 8.

MIKE CURB
Lieutenant Governor

Crime has increased to an absolutely intolerable level.

While criminals murder, rape, rob and steal, victims must install new locks, bolts, bars and alarm systems in their homes and businesses. Many buy tear gas and guns for self-protection. FREE PEOPLE SHOULD NOT HAVE TO LIVE IN FEAR.

Yet, higher courts of this state have created additional rights for the criminally accused and placed more restrictions on law enforcement officers. This proposition will overcome some of the adverse decisions by our higher courts.

THIS MEASURE CREATES RIGHTS FOR THE VICTIMS OF VIOLENT CRIMES. It enacts new laws that those of us in law enforcement have sought from the Legislature without success.

While there are more people going to state prison than there were three years ago, only 5.5 percent of those persons *arrested* for felonies are sent to state prison. Of those *convicted* of felonies, one-third go to state prison and the remaining two-thirds are back in the community in a relatively short period of time.

THERE IS ABSOLUTELY NO QUESTION THAT THE PASSAGE OF THIS PROPOSITION WILL RESULT IN MORE CRIMINAL CONVICTIONS, MORE CRIMINALS BEING SENTENCED TO STATE PRISON, AND MORE PROTECTION FOR THE LAW-ABIDING CITIZENRY.

IF YOU FAVOR INCREASED PUBLIC SAFETY, VOTE YES ON PROPOSITION 8.

GEORGE DEUKMEJIAN
Attorney General

Why is it that the Legislature doesn't start getting serious about a problem until we, the people, go out and qualify an initiative?

Four years ago it was Proposition 13, which I coauthored, to cut skyrocketing property taxes.

A year later we had to go to the initiative process to place a lid on government spending. That effort, the Gann Spending Limitation Initiative, was carried with a landslide 75 percent of the vote.

Today it is the forgotten victims of violent crime that the Legislature has so callously ignored. Again, it is up to the people to bring about reasonable and meaningful reform.

Your "YES" vote on Proposition 8 will restore victims' rights and help bring violent crime under control.

PAUL GANN
Proponent, Victims' Bill of Rights

Rebuttal to Argument in Favor of Proposition 8

WHY DON'T THE POLITICIANS SUPPORTING PROPOSITION 8 TELL YOU WHAT IT REALLY DOES? Look closely at their arguments. They are simply political slogans and anticrime propaganda.

Every responsible citizen opposes crime, but we should also be very HESITANT to make *RADICAL* changes in our Constitution.

Yet Proposition 8 does just that . . . it needlessly reduces your personal liberties . . . and clearly harms true efforts to fight crime.

CONSIDER THESE EFFECTS OF PROPOSITION 8:

Takes away everyone's right to bail. (Compare Proposition 4, which targets only violent felons.)

Allows strip searches of minor traffic offenders.

Condones the use of wiretapping and seizure of your telephone and credit records without a warrant.

Permits spying on you in a public restroom.

Either Proposition 8 takes away your rights, or it is unconstitutional . . . in which case *valid criminal convictions will be thrown out.*

The other reason they say nothing specific is that MUCH OF PROPOSITION 8 IS ALREADY LAW. These laws:

Send mentally disordered sex offenders to prison.
Eliminate the diminished capacity defense.
Provide life sentences for habitual criminals.
Guarantee victim input.
Place controls on plea bargaining.
Restrict bail for violent felons (Proposition 4).

Proposition 8 will *undermine these new laws* by imposing its confusing language on top of clear, well-thought-out reforms.

Proposition 8 is the kind of abuse of the initiative process by political candidates which should be condemned. If you care about your privacy . . . and especially if you care about effective, responsible law enforcement . . . VOTE NO ON PROPOSITION 8.

Argument Against Proposition 8

You're afraid of crime—and you have the right to be.

If Proposition 8 would end crime, we would be the first to urge you to vote for it.

But Proposition 8 is a hoax . . . there is no other way to describe it.

Some ambitious politicians may think this ill-conceived measure helps them. It will certainly help keep an army of appellate lawyers fully employed . . .

But it will not reduce crime, help victims, or get dangerous criminals off the streets.

As professionals, charged with the responsibility of controlling crime and prosecuting criminals . . . we ask YOU to PLEASE VOTE NO on PROPOSITION 8.

Proposition 8 is so badly written *it mangles* nearly every aspect of the criminal justice system it touches.

READ the PROBLEMS it will cause:

UNCONSTITUTIONAL INITIATIVE TAKES CONVICTED KILLERS OFF DEATH ROW

Even some of Proposition 8's supporters agree it may be unconstitutional. But unconstitutional laws cause sentences to be overturned. Thirty convicted killers were recently taken off death row because of one unconstitutional line in the 1978 Death Penalty Initiative.

CONVICTING PEOPLE LIKE THE "FREEWAY KILLER" NEARLY IMPOSSIBLE

Proposition 8 seeks to stop plea bargaining. Its wording, however, would take away law enforcement's ability to negotiate with criminals to get them to testify against each other . . . This is how the "Freeway Killer" was convicted. It is how law enforcement fights organized crime and gang violence.

FREES DEFENSE LAWYERS TO SMEAR POLICE WHO TESTIFY IN COURT

Under current law, a defense lawyer cannot attack the character of a police witness. If Proposition 8 passes he could.

REQUIRES MILLIONS OF DOLLARS IN NEW COURT PROCEDURES—BUT NO MONEY TO PAY FOR THEM

Look at the cost of Proposition 8 at the top of this measure. Why is it so expensive?

A major share is for extra court hearings and elaborate new red tape in every criminal case—most of which are misdemeanors. This will require more courts, judges, clerks, and probation officers.

Proposition 8 does not provide one cent to pay for these things.

COURTS IN CHARGE OF PUBLIC SCHOOLS

Nobody knows what the so-called "safe schools" section means. The likely result of this provision is constant court battles over compliance. This will no doubt lead to judges running some of our schools. It also could give children the constitutional right to refuse to attend school.

VICTIM RESTITUTION—A MEANINGLESS PROMISE

What good is a right to restitution when so many victims are harmed by criminals who can't pay? (Ever been hit by an uninsured motorist?) Besides, victims already have the right to collect from criminals who can pay.

PROPOSITION 8—A POLITICAL PLOY

As professionals, we know our criminal justice system needs carefully written, tough, constitutional laws and procedures.

Proposition 8 is none of these. It makes it harder to convict criminals, will lead to endless appeals, and will create chaos in the legal system.

It may be good politics, but it is bad law.

PLEASE, VOTE NO ON PROPOSITION 8.

Rebuttal to Argument Against Proposition 8

LAW ENFORCEMENT SUPPORTS PROPOSITION 8

Proposition 8 has been endorsed by more than 250 police chiefs, sheriffs and district attorneys. It has the support of more than 30,000 rank-and-file police officers.

Senior Assistant Attorney General George Nicholson, a chief architect of the Victims' Bill of Rights and a former murder prosecutor, has called Proposition 8 "the most effective anticrime program ever proposed to help the forgotten victims of crime."

ANTICRIME LEGISLATIVE LEADERS SUPPORT PROPOSITION 8

Proposition 8 coauthor Assemblywoman Carol Hallett says, "A generation of victims have been ignored by our Legislature, thanks to the Assembly Criminal Justice Committee. Proposition 8 takes the handcuffs off the police and puts them on the criminals, where they belong."

THE PEOPLE SUPPORT PROPOSITION 8

Throughout California, hundreds of thousands of your fellow citizens carried and signed petitions to place this vital initiative on the ballot. Many of these people have lost family members or are themselves victims of crime.

But they are not only victims of crime, they are victims of our criminal justice system—the liberal reformers, lenient judges and behavior modification do-gooders who release hardened criminals again and again to victimize the innocent.

It's time to restore justice to the system.

VOTE YES FOR VICTIMS' RIGHTS.

9 Water Facilities Including a Peripheral Canal—Referendum Statute

Official Title and Summary Prepared by the Attorney General

WATER FACILITIES INCLUDING A PERIPHERAL CANAL. REFERENDUM STATUTE. A "yes" vote approves, a "no" vote rejects, a law that will: Designate additional facilities and programs, including a peripheral canal, as units of Central Valley Project. Specify requirements regarding feasibility, environmental impacts, design, construction, operation, financing, and protection and enhancement of fish and wildlife for project units. Require Water Resources Department to contract with named delta agencies regarding users' rights, water quality, and benefit payments; and to immediately proceed with specified prerequisites to construction of peripheral canal. Require compliance with designated water quality standards and conditions. Specify other responsibilities and matters. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: As Project has been planned and operated to be self-supporting, implementation under present policies would not require increase in state taxes or reduce funds for other state programs. Potential construction costs at 1981 prices are in excess of $3.1 billion plus unknown additional costs, plus interest, to be financed by increased user charges.

Analysis by the Legislative Analyst

Background:

The State Water Project. In 1960, the California voters approved the Burns-Porter Act, which authorized (1) the construction of the State Water Project and (2) the issuance of $1.75 billion of general obligation bonds to assist in financing the project. The State Water Project was designed to provide additional water primarily in the San Joaquin Valley and southern California.

The Department of Water Resources has now completed the main features of the State Water Project consisting of (1) a dam and reservoir at Oroville which stores water in the winter for release into the Sacramento River and the Sacramento-San Joaquin River Delta in the summer and (2) a large pumping plant at the southwestern edge of the delta to pump water from the delta into an aqueduct system for delivery primarily to the San Joaquin Valley and southern California.

The Burns-Porter Act also provided construction and funding authority for additional *unspecified* facilities as well as a facility to transfer water across the Sacramento-San Joaquin Delta. The Peripheral Canal would be such a transfer facility.

The Peripheral Canal. Construction of the Peripheral Canal has been proposed since 1965 to improve water quality in the delta, to provide fishery protection and to provide additional water to central and southern California. The canal would move Sacramento River water around the eastern and southern edge of the delta, rather than allow it to move through the natural channels of the delta.

The Peripheral Canal would permit human decisions to partially modify the flows in the delta. As a consequence, issues have arisen concerning (1) the amount of water that would be released from the Peripheral Canal to maintain fisheries and water quality in the delta, (2) the protection that would be provided to holders of water rights in the delta, and (3) the amount of water that would flow from the delta to flush San Francisco Bay.

During the 1979–80 Regular Session the Legislature enacted Senate Bill No. 200 and Assembly Constitutional Amendment No. 90, which pertain to the State Water Project generally and the Peripheral Canal and delta specifically.

SB 200 (Chapter 632). Senate Bill 200 specifically directs the Department of Water Resources to construct the Peripheral Canal and authorizes the construction of several other major facilities as additions to the State Water Project. These facilities and their costs are shown in Table 1.

Text of Proposed Law

This law proposed by Senate Bill 200 (Statutes of 1980, Chapter 632) is submitted to the people as a referendum in accordance with the provisions of Section 9 of Article II of the Constitution.

This proposed law expressly amends an existing section of, and adds sections to, the Water Code; therefore, new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SECTION 1. Section 11108 is added to the Water Code, to read:

11108. "Delta" means the Sacramento-San Joaquin Delta as described in Section 12220.

SEC. 2. Section 11109 is added to the Water Code, to read:

11109. "Suisun Marsh" means the area defined in Section 29101 of the Public Resources Code.

SEC. 3. Section 11110 is added to the Water Code, to read:

11110. "Historical level" means the average annual abundance from 1922 through 1967 of the adult populations of fish and wildlife estimated to have lived in or been dependent on any area, as determined by the Department of Fish and Game.

SEC. 4. Article 9.4 (commencing with Section 11255) is added to Chapter 2 of Part 3 of Division 6 of the Water Code, to read:

Article 9.4. Additional Facilities and Programs

11255. The project includes the units authorized in this section, subject to the conditions specified in Sections 11256 and 11257, and in compliance with the California Environmental Quality Act (commencing with Section 21000 of the Public Resources Code) and which may be constructed, operated, and financed as joint-use facilities with the United States:

(a) A peripheral canal unit, around the eastern and southern rim of the delta. This unit shall be designed, constructed, and operated to meet the provisions of this part in the most effective manner, and shall consist of canals, pumping plants, intake and outlet structures, siphons and fish screens. The department shall design and construct the unit so as to optimize its usefulness for the protection of the resources of the delta and the augmentation of water supplies. The department may provide for joint use or delivery of water from the unit with local agencies or with the United States upon the execution of agreements with local agencies or with the United States concerning operation, financing, and sharing of benefits of the unit. This unit shall be constructed in three stages, with the work on the first and second stages proceeding concurrently. Stage one shall consist of construction of the facility from the town of Hood to Shima Tract on the northwest outskirt of Stockton. Stage two shall consist of preconsolidation from the San Joaquin River to Clifton Court Forebay of the California Aqueduct. Stage three shall consist of the completion of the facilities from Shima Tract to Clifton Court Forebay. When stage one is completed, it shall be operated for a period of two years to establish adequate fish screen and operational criteria. Thereafter, stage three shall be constructed when the Director of Water Resources and the Director of Fish and Game both determine from the results of the trial period that the fish screen and operational criteria will adequately protect fish populations. The state water facilities referred to in paragraph (3) of subdivision (d) of Section 12934 are defined to include this unit.

(b) Relocation of the intake to the Contra Costa Canal to divert water from the state water facilities, subject to the terms of a contract between the department and beneficiaries.

(c) The Los Vaqueros unit, to be located in eastern Contra Costa County about eight miles west of the Clifton Court Forebay. Other offstream storage reservoirs may be located south or west of the delta, as determined by the Director of Water Resources, to be served by existing project facilities.

(d) South delta water quality improvement facilities, consisting of pumping plants, discharge canals, flow control structures, and channelization of sloughs to provide improved circulation, distribution, and quality of water in the southeastern delta and to meet the needs of the south delta area, to be completed no later than the facility described in subdivision (a) of this section. Such facilities may include a turnout from the California Aqueduct to the Westley Wasteway of the federal Delta-Mendota Canal or other facilities to deliver water to the San Joaquin River or in lieu thereof the director may agree with the Bureau of Reclamation to exchange equivalent water between the Delta-Mendota Canal and the California Aqueduct. The portion of the facilities not integrally connected with the facility described in subdivision (a) of this section, or its operation, shall be constructed only if a contract between an appropriate agency representing the beneficiaries and the department is executed.

(e) As mitigation for the past, present, and future adverse impacts of reduced delta outflows on the wildlife resources of the Suisun Marsh, the department shall construct, maintain, and operate or contract with the Suisun Resources Conservation District for the construction, maintenance, or operation of the Suisun Marsh overall protection facilities in accordance with a plan to be developed by the department in cooperation with the Suisun Resources Conservation District and the Department of Fish and Game. The facilities shall be completed no later than stage one of the facilities described in subdivision (a) of this section.

(f) Facilities for utilizing ground water storage space determined by the director to be feasible for the purpose of providing yield for the State Water Resources Development System based upon estimates by the department that ground water storage can yield 400,000 acre-feet annually, in conjunction with existing and future surface water supplies, by the recharge and extraction of ground water and including the capitalized cost of delivering water for filling or refilling ground water storage space, in one or more of the following locations within the service area of the State Water Resources Development System:

(1) The south San Francisco Bay area in the Counties of Santa Clara and Alameda, served by the South Bay Aqueduct.

(2) San Joaquin Valley, served by the California Aqueduct.

(3) Southern California, served by the California Aqueduct, including enlargement of the Devil Canyon Power Plant and the Mojave Division (East Branch) from the proposed Cottonwood Power Plant to Silverwood Lake.

None of the facilities described in this subdivision shall be constructed or operated within the boundaries of an agency that has contracted for water from the State Water Resources Development System without a contract with such agency.

(g) Glenn Reservoir-River Diversion Unit on the west side of the Sacramento Valley in the vicinity of Stony Creek and Thomes Creek watersheds. This unit may be constructed in stages.

(h) If the Glenn Reservoir-River Diversion Unit authorized in subdivision (g) is not feasible, as determined by the Director of Water Resources, the Colusa Reservoir-River Diversion Unit on the west side of the Sacramento Valley in the western portion of the Counties of Glenn and Colusa. This unit may be constructed in stages. The Sites Reservoir portion of the unit may be developed at any time hereafter by the federal government as a facility of the federal Central Valley Project to serve the Tehama-Colusa Canal and any extension thereof into Yolo and Solano Counties.

(i) Waste water reclamation programs to provide yield for the State Water Resources Development System, provided such facilities are economically competitive with alternative new water supply sources. None of the facilities described in this subdivision shall be constructed or operated within the boundaries of any agency that has contracted for water from the State Water Resources Development System without a contract with such agency.

(j) Water conservation programs within the boundaries of agencies that have contracted for water from the State Water Resources Development System, provided, that the implementation of such programs is contingent upon contracts between such agencies and the Department of Water Resources. Based on estimates of the department, waste water reclamation and water conservation in urban areas served by the State Water Resources Development System are projected to total 700,000 acre-feet annually by year 2000.

(k) The Mid-Valley Canal Unit, which shall be constructed primarily for the purpose of alleviating the ground water overdraft and providing water supplies for the state and federal water fowl management areas in the canal service area; provided, that the water delivered through its facilities shall be water developed by facilities other than those of the project, and provided further, that such water shall be transported through the facilities described in subdivision (a) of this section and, provided further, that the full cost of the unit incurred by the state and allocated to agricultural, municipal, and industrial contractors shall be repaid by them.

9 Water Facilities Including a Peripheral Canal—Referendum Statute

Argument in Favor of Proposition 9

Proposition 9 will help to assure adequate water supplies for all Californians and avoid water shortages which can force water rationing and cripple our state's economy.

Proposition 9—a comprehensive water management and conservation measure—will authorize construction of the last vital link of the California Aqueduct and related facilities designed to complete the State Water Project. It will also help protect water quality, our fish and wildlife, and the productive farmlands which feed our families. Proposition 9 will require *no new or increased state taxes.*

Proposition 9 will:

- Protect California's economic health and ensure millions of jobs which depend on a stable water supply.
- Save billions of gallons of water now lost during seasons of heavy rains and conserve it for use during drought years.
- Provide facilities to safely transport this water for use in the San Francisco Bay area and central and southern California.
- Guarantee that the water needs of northern California and the environmentally sensitive Sacramento-San Joaquin Delta are served *first;* that only water which is *surplus* because of heavy runoff may be transported south.
- Provide protection against drought and help replace the Colorado River water California will lose to Arizona because of a Supreme Court decision cutting southern California's supplies from the Colorado River Aqueduct by 55 percent in this decade.
- Assure adequate irrigation water for California agriculture.
- Provide needed facilities to solve water quality problems and increase water supplies for Contra Costa, Alameda, Santa Clara and other northern counties.
- Guarantee water quality protection in the Sacramento-San Joaquin Delta and San Francisco Bay.
- Protect and enhance fish and wildlife in the delta region.
- Provide constitutional safeguards to protect wild and scenic rivers in northern California.
- Provide a reasonable framework for developing facilities to store surplus water for use during drought years.
- Encourage vigorous water conservation and reclamation efforts.

Only those who actually receive and use water from these facilities will pay for their development. There will be no new state taxes.

Proposition 9 is the result of more than 20 years of study and planning under Governors Pat Brown, Ronald Reagan, and Jerry Brown. It is essential to California's overall water delivery system, a comprehensive network of aqueducts, reservoirs and dams that brings drinkable water from hundreds of miles away to San Francisco and the East Bay as well as southern California and the San Joaquin Valley. The State Water Project provides water for 14 million people from San Diego to the Napa Valley.

Proposition 9 is essential to the completion of an economical and environmentally sound system to provide adequate water supplies for California's future. Without this vital measure, we will be forced to live with chronic water shortages and the threat of rationing throughout California.

A YES vote on Proposition 9 is a vote for a reasonable, balanced program of water resource development and conservation; a program to keep California's economy healthy, its fish and wildlife plentiful, its environment beautiful, and its citizens safe from drought.

Please vote YES on Proposition 9.

Rebuttal to Argument in Favor of Proposition 9

Supporters of Proposition 9 would have you believe this measure is without fault—that it ensures the safety of our environment while providing abundant water supplies at little or no cost to the taxpayer.

If that is the case, then why do the state's leading *taxpayer groups, agricultural associations* and *environmental organizations* OPPOSE PROPOSITION 9?

It's simply no great secret that the only ones to benefit from this TAXPAYER-SUPPORTED BOONDOGGLE are the major oil companies and the big southern California land developers.

While THEY BENEFIT, the *taxpayer bears the burden.*

More convincing reasons to VOTE NO on PROPOSITION 9 are found in FACTS the *supporters don't tell you.*

FACT—A cost/benefit study of the project has *never* been performed by any public agency.

FACT—The project will NEVER PAY FOR ITSELF.

FACT—No state agency can provide complete and accurate cost figures on the project.

FACT—Proposition 9 may cause PROPERTY TAXES to be RAISED *beyond* the levels established by PROPOSITION 13.

FACT—The highly respected Legislative Analyst's office has recently amended its estimates and now says the cost will be in excess of 5.4 billion dollars plus *OTHER UNKNOWN COSTS.*

Obviously, this issue is TOO COMPLEX, TOO GREAT a threat to our farmland and our environment, and TOO COSTLY to approve without exploring alternatives.

We believe Californians want to know *how much* it's going to cost *before they vote.* That's why we urge you to VOTE NO on PROPOSITION 9.

Water Facilities Including a Peripheral Canal—Referendum Statute

9

Argument Against Proposition 9

There are several thoughtful and important reasons that so many different individuals and organizations have united to urge you to VOTE NO on PROPOSITION 9.

Farmers, environmentalists and taxpayer groups all agree —Proposition 9 IS TOO COSTLY and represents political compromise at its worst.

Taxpayer groups know it will cost us billions of dollars to construct facilities whose performance could be achieved by other means for *far less money.*

Agriculture knows it will cost valuable land that is being used to provide food and fiber at reasonable prices. This measure guarantees *no* more needed water.

Environmentalists know it will cost us the protection of our fish, wildlife and the fragile ecology of the delta. It also means continued unwarranted benefits for the big oil companies and wealthy land developers who often masquerade as farmers.

Please consider these FACTS before you vote.

VERY SIMPLY, Proposition 9:

- WILL cost at *least* 3.68 BILLION DOLLARS and *as much as* 19.2 BILLION DOLLARS according to the proponents' own cost figures.
- WILL seriously damage the environment in the San Francisco Bay and delta areas.
- WILL result in the *loss* of water quality and quantity to small farmers and ranchers throughout the state.
- WILL allow continued subsidy of water supplies for big oil companies and wealthy land developers at the *expense of southern California taxpayers* who will not receive the benefit.
- WILL remove your right to help decide a fair water policy by assigning total control and legal authority for water projects to appointed bureaucrats in Sacramento.

VERY SIMPLY, Proposition 9:

- WILL NOT guarantee that no new taxes will be assessed against your property.
- WILL NOT encourage conservation of our precious water resources.
- WILL NOT provide any additional protection against drought.
- WILL NOT assure adequate irrigation water for California agriculture.
- WILL NOT help Californians establish a fair water policy.

Proposition 9 represents the *most expensive* and extravagant alternative yet proposed to meet our state's water needs. Those of us working together to DEFEAT PROPOSITION 9 don't always agree on water issues. But we all know and agree on one particular issue—PROPOSITION 9, with a price tag ranging from 3.6 to 20 billion dollars—is *TOO EXPENSIVE, TOO COSTLY* and threatens all water users and taxpayers with *an unbelievable economic burden* through the year 2000.

Finally, ask yourself in these times of financial crisis in our state government, "Even if I wanted to pay the increased taxes this *will cost,* am I getting my money's worth?"

The *special interests who benefit most* hope you won't realize the excessive cost, extreme environmental damage, and serious water policy issues at stake. And one of *their leading* spokesmen summed up their attitude best when he stated in the *Los Angeles Times,* "We'll get that water by hook or by crook." We should not be bullied by the special interests.

We think Californians want to develop a *fair* water policy—that's why we urge a NO vote on PROPOSITION 9.

Rebuttal to Argument Against Proposition 9

Proposition 9 means the lowest possible water costs for California consumers and requires not one penny in new or increased state taxes.

More importantly, Proposition 9 will prevent billions of dollars in economic loss from water shortages which now threaten our farms, factories and families. Major water districts project shortages of 20–40 percent in the next drought without Proposition 9—that means higher food prices and more unemployment.

Don't be taken in by phony numbers thrown around by selfish interests who want to shut down the State Water Project. State Department of Water Resources figures show that Proposition 9 will actually reduce future state project water costs.

The State Water Project, under development since 1958, is the most efficient water conservation and transportation system in the world. It must be completed. Delays will only lead to higher cost and continued waste of valuable water now flooding out to sea.

The cost of the Peripheral Canal will average less than $10 a year to southern California families—a small price to guarantee adequate water supplies. Those who don't use water from the project won't pay anything.

Responsible civic, agricultural, environmental, business and labor leaders, and water experts throughout California support Proposition 9. Opposition is led by misguided extremists and a handful of land interests willing to sacrifice the best interests of 23,000,000 Californians to maximize their own profits.

Proposition 9 is the only way to assure adequate water supplies for all Californians. Vote YES on Proposition 9.

10 Reapportionment. Congressional Districts—Referendum Statute

Official Title and Summary Prepared by the Attorney General

REAPPORTIONMENT. CONGRESSIONAL DISTRICTS. REFERENDUM STATUTE. A "yes" vote approves, a "no" vote rejects, a statute (Chapter 535) enacted by 1981 Legislature revising the boundaries of the 43 congressional districts and adding 2 new congressional districts. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: Approval would not affect state or local costs. Rejection, which would require establishment of new congressional districts in 1983, would result in state costs of $250,000 and county costs of $350,000.

FINAL VOTE CAST BY THE LEGISLATURE ON AB 301 (PROPOSITION 10)

Assembly—Ayes, 44 Noes, 29

Senate—Ayes, 21 Noes, 15

Analysis by the Legislative Analyst

Background:

The State Constitution requires the Legislature to adjust the boundary lines of California's congressional districts every 10 years, in the year following the federal census. This process is known as "reapportionment" or "redistricting." Congressional districts are required to be as nearly equal in population as is practicable, consistent with provisions of the Federal Constitution, as interpreted by the United States Supreme Court. The State Constitution provides that the districts shall be "single-member" and composed of contiguous territories, numbered consecutively commencing at the northern boundary of the state and ending at the southern boundary. In forming the districts, the integrity of cities, counties, and geographical regions must be respected to the extent possible without violating other constitutional requirements.

Following the 1980 federal census, the Legislature enacted Chapter 535 (AB 301), Statutes of 1981, which established boundaries for the 45 congressional districts to which California is entitled.

Proposal:

This referendum allows the voters to approve or reject the congressional reapportionment statute adopted in 1981 by the Legislature.

If the statute is approved, the congressional districts established by the act would remain unchanged until 1991, when the Legislature would be required to establish new boundaries for the districts, based on the results of the 1990 federal census.

If the statute is rejected, the congressional districts established by the act would be used only for the primary and general elections in 1982. In 1983, the Legislature would be required to adopt new boundaries for the districts which would remain unchanged until 1991. The California Supreme Court, in a recent decision involving this statute, stated that, if the voters reject the statute, the new districts would have to be "essentially different" from the old districts.

Fiscal Effect:

Approval of this statute would not affect state or local costs.

Rejection of this statute would require the Legislature to establish new congressional districts in 1983. The State General Fund costs associated with establishing new congressional districts would be approximately $250,000. Counties would incur one-time costs of approximately $350,000 to develop new precinct maps and related election materials for the districts.

Text of Proposed Law

This law proposed by Assembly Bill 301 (Statutes of 1981, Ch. 535) is submitted to the people as a referendum in accordance with the provisions of Article II, Section 9 of the Constitution.

This proposed law expressly repeals an existing chapter of the Elections Code and adds a new chapter thereto; therefore, the new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SECTION 1. Chapter 4 (commencing with Section 30030) of Division 18 of the Elections Code is repealed.

SEC. 2. Chapter 4 (commencing with Section 30030) is added to Division 18 of the Elections Code, to read:

CHAPTER 4. CONGRESSIONAL DISTRICTS

30030. It is the intent of the Legislature in the enactment of this chapter to implement the United States constitutional mandate as set forth in Section 2 of Article I and the provisions of Article XXI of the California Constitution.

30031. For purposes of this chapter, references to "CT" shall mean "census tract", and references to "Ed" or "Eds" shall mean "enumeration district" or "enumeration districts", respectively, as those demographic units are established by the United States Bureau of the Census for the 1980 census as described by maps and publications of the bureau.

References to "Block Group" and "Blocks", respectively, shall mean those demographic units as established by the United States Bureau of the Census for the 1980 census as described by maps and publications of the Bureau.

In addition, and for purposes of this chapter, references to "city boundaries", "city limits", or "boundaries of the town", respectively, shall refer to the boundaries or limits of the particular city or town as they existed on April 1, 1980, except as is otherwise expressly provided. Reference to a city or town shall refer to the particular incorporated municipality provided for herein.

30032. Congressional District 1: Congressional District 1 shall consist of the following whole counties: Del Norte, Glenn, Humboldt, Mendocino, Sonoma, Trinity.

Congressional District 2: Congressional District 2 shall consist of the following whole counties: Butte, Colusa, Lake, Napa, Sutter, Tehama, Yuba, together with the part of Shasta County not included in Congressional District 14.

Congressional District 3: Congressional District 3 shall consist of the part of Sacramento County contained in the following whole and partial census tracts:

10 Reapportionment. Congressional Districts—Referendum Statute

Argument in Favor of Proposition 10

Vote yes on Proposition 10. Do not be misled by the Republican effort in this state to buy congressional districts that they cannot win at the polls on election day.

Over $1 million has been spent by their special interests in an attempt to overturn the congressional redistricting plan that was passed by both houses of the State Legislature and signed into law by the Governor.

Their special interests seek to thwart this legislative expression of the will of the people, seek to sow confusion among the voters and, in so doing, disrupt the normal political process within our state. Interestingly enough, they have not told the voters what plan they have in mind.

The congressional redistricting law they seek to have overthrown meets in every respect the guidelines required by the United States Constitution, the Constitution of the State of California and those mandated by the United States Supreme Court's historic "one person—one vote" decision.

In addition, the congressional redistricting law recognizes to an unprecedented extent the requirement to respect city and county boundaries.

The congressional redistricting law, in short, is a fair, just and equitable plan which adheres faithfully to the equal population charter enunciated by the U.S. Supreme Court.

California's newly formed congressional districts are more equal in population than that accomplished in any redistricting enacted into law in any major state in the history of our country.

The ideal population per district is 525,968. California's 45 congressional districts' average difference from that ideal is less than 100 persons.

The congressional redistricting law recognizes in a positive way the historic struggle of Hispanics, Blacks, Asians and other minorities in our state to secure fair representation. This plan protects the voting rights of all our citizens with special attention to the concerns of labor, senior citizens and environmentalists.

The congressional redistricting law has been reviewed by the United States Department of Justice and found to comply with all requirements of the Federal Voting Rights Act applicable to the counties of this state under its jurisdiction.

The congressional redistricting law has given added representation to the rapidly growing areas of our state, such as Orange, San Diego, Riverside and San Bernardino Counties, the Central Valley and the growth areas of the San Francisco Bay area and northern California.

The congressional plan is supported by the following members of the California congressional delegation: Brown, J. Burton, P. Burton, Coelho, Danielson, Dellums, Dixon, Dymally, Edwards, Fazio, Hawkins, Lantos, Matsui, Miller, Mineta, Panetta, Patterson, Roybal, Stark and Waxman.

We urge you to consider that the congressional redistricting plan adopted by the Legislature and signed by the Governor affords stability in our electoral process, provides protection of the voting rights of minorities and all our citizens, complies with constitutional and court mandates for congressional representation and, importantly, provides for the two new congressional districts to which California is entitled.

We urge you to join with us and to vote YES ON PROPOSITION 10.

Rebuttal to Argument in Favor of Proposition 10

Claims that big-money "special interests" have spent $1 million to overturn the congressional reapportionment plan simply are not true.

The campaign against the plan has been funded with small donations from over 56,000 California voters.

The only "special interests" served by this redistricting plan are the 20 Congressmen listed in the "yes" argument. They were given politically "safe" districts that were drawn in secret and rammed through the Legislature in the closing hours of the last session.

Their plan is not "just, fair and equitable," nor does it "protect the voting rights of all our citizens."

IN TRUTH, THE PLAN IS SO UNFAIR AND BLATANTLY PARTISAN THAT IT HAS BEEN CRITICIZED BY NEARLY EVERY NEWSPAPER, RADIO AND TELEVISION STATION THAT HAS COMMENTED ON REAPPORTIONMENT.

As the respected *California Journal* recently noted, the plan makes it seem as though "the congressional elections of 1980 never took place in California."

The plan eliminates the healthy electoral competition that has given our state a closely balanced congressional delegation reflecting the diverse views of all the people of California, not just a select few.

CLAIMS THAT THE PLAN MEETS CONSTITUTIONAL STANDARDS ARE GROSSLY MISLEADING. NEW CONGRESSIONAL DISTRICTS HAVE BEEN DRAWN TO PROTECT INCUMBENT CONGRESSMEN AND REWARD FAVORED LEGISLATORS WANTING TO BECOME CONGRESSMEN, NOT TO FAIRLY OR ACCURATELY REFLECT POPULATION CHANGES.

The plan stacks the deck against California voters to help a handful of politicians. It should and must be defeated.

VOTE "NO" ON PROPOSITION 10.

Reapportionment. Congressional Districts—Referendum Statute 10

Argument Against Proposition 10

The *Los Angeles Herald Examiner* recently called California's reapportionment process "the disease that hurts democracy"—and nowhere are the symptoms of that disease more evident than in the reapportionment of our state's congressional districts.

You can stop this year's unfair congressional reapportionment plan by voting "no" on Proposition 10. Your "no" vote is a vote against the politicians and their continuing reapportionment abuses.

Reapportionment occurs every 10 years when the Legislature draws new congressional and legislative districts to reflect changes in our state's population.

Ideally, the new districts should link voters with common interests, preserve the integrity of city and county boundaries, encourage healthy two-party competition at the polls, and balance popuiation so all citizens enjoy equal representation in government.

This year's congressional reapportionment, however, was used simply to increase the raw political power of the politicians who drew the new districts at the expense of those ideal goals.

The new districts are unfairly drawn and blatantly gerrymandered. They wander helter-skelter throughout California. They violate city and county boundaries. They ignore the need to link voters with shared interests, and do everything ossible to eliminate two-party competition.

One district, for example, links some San Francisco suburbs with the Sierra Nevada Mountains. A small "finger" from a San Joaquin Valley district runs north to the Oregon border, while another district joins Orange and Los Angeles Counties with a narrow strip of beach running through the Los Angeles harbor.

This year's congressional reapportionment is the product of our political system at its very worst. The plan was rushed through the Legislature and signed into law without the benefit of adequate public hearings and citizen comment.

The plan was drafted by a handful of politicians behind closed doors, beyond sight of the press and public. Maps of the new congressional districts were not made available to lawmakers, the press or the public until *after* the plan became law.

In short, this year's congressional reapportionment is the work of a few self-serving politicians who consider themselves above public scrutiny.

Fortunately, over 900,000 Californians rejected that secrecy and signed petitions to place this outrageous plan before the people of California for final review.

The issue here is basic: Whom should reapportionment serve—the people, or the politicians?

A "no" vote on Proposition 10 is a vote *against* those politicians who put their own narrow self-interests ahead of the public good. It is a vote *against* politicians who use our reapportionment process to bolster their own political fortunes at the expense of fair and equal representation in government.

Your "no" vote will stop further abuse of our reapportionment process and help cure "the disease that hurts democracy."

Vote "no" on Proposition 10.

Rebuttal to Argument Against Proposition 10

Vote YES on Proposition 10.

The Republican ballot argument in opposition to Proposition 10 talks of "the disease that hurts democracy." What they do not tell you is that, having failed to get a redistricting to their liking, they now wish the voters of California to give them a second chance.

A second chance to decimate Democratic districts across the state as they have across the country in states where Republicans have control of the redistricting process.

A second chance to create safe Republican congressional seats and to give the President the margin he so desperately needs to continue his onslaught against social programs which provide education and lunches for school children, loans for higher education, medical care for senior citizens and the disabled, social security, jobs, job security and training for working men and women, housing and whole range of programs which help those most in need in our society.

Do not be misled. "The disease that hurts democracy" is not redistricting but the Republican attempt to sow confusion among the voters on this issue and in their attempt to buy control of House of Representatives for their narrow special interest.

We urge you to reject their attempt and to join with us and *vote YES on Proposition 10.*

11 Reapportionment. Senate Districts—Referendum Statute

Official Title and Summary Prepared by the Attorney General

REAPPORTIONMENT. SENATE DISTRICTS. REFERENDUM STATUTE. A "yes" vote approves, a "no" vote rejects, a statute (Chapter 536) enacted by 1981 Legislature revising the boundaries of the 40 Senate districts and adopting provisions imposing time and other limitations on redistricting court challenges. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: Approval would not affect state or local costs. Rejection, which would require establishment of new Senate districts in 1983, would result in state costs of $370,000 and county costs of $500,000.

FINAL VOTE CAST BY THE LEGISLATURE ON SB 99 (PROPOSITION 11)

Assembly—Ayes, 45 Noes, 32

Senate—Ayes, 26 Noes, 11

Analysis by the Legislative Analyst

Background:

The State Constitution requires the Legislature to adjust the boundary lines of the 40 State Senate districts every 10 years, in the year following the federal census. This process is known as "reapportionment" or "redistricting." Its primary purpose is to establish Senate districts which are reasonably equal in population, consistent with the equal protection provisions of the State and Federal Constitutions (the one person, one vote concept). The State Constitution provides that the districts shall be "single-member" and composed of contiguous territories, numbered consecutively commencing at the northern boundary of the state and ending at the southern boundary. In forming the districts, the integrity of cities, counties, and geographical regions must be respected to the extent possible without violating other constitutional requirements.

Following the 1980 federal census, the Legislature enacted Chapter 536 (SB 99), Statutes of 1981, which revised the boundaries of the 40 Senate districts and imposed time and other limitations on all redistricting court challenges.

Proposal:

This referendum allows the voters to approve or reject the Senate reapportionment statute adopted in 1981 by the Legislature.

If the statute is approved, the Senate districts established by the act would remain unchanged until 1991, when the Legislature would be required to establish new boundaries for the districts, based on the results of the 1990 federal census.

If the statute is rejected, the Senate districts established by the act would be used only for the primary and general elections in 1982. In 1983, the Legislature would be required to adopt new boundaries for the districts which would remain unchanged until 199' The California Supreme Court, in a recent decision i volving this statute, stated that if the voters reject the statute the new districts would have to be "essentially different" from the old districts.

Fiscal Effect:

Approval of this statute would not affect state or local costs.

Rejection of this statute would require the Legislature to establish new Senate districts in 1983 and would make ineffective the other provisions of the statute. The State General Fund costs associated with establishing new Senate districts would be approximately $370,000. Counties would incur one-time costs of approximately $500,000 to develop new precinct maps and related election materials for the districts.

Text of Proposed Law

This law proposed by Senate Bill 99 (Statutes of 1981, Ch. 536) is submitted to the people as a referendum in accordance with the provisions of Article II, Section 9 of the Constitution.

This proposed law expressly repeals an existing chapter of the Elections Code and adds a new chapter thereto; therefore, new provisions proposed to be added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SECTION 1. The Legislature recognizes its mandated duty and responsibility under Section 1 of Article XXI of the California Constitution and other applicable law to adjust, by statute, the boundary lines of the Senatorial, Assembly, Congressional, and Board of Equalization Districts by December 31, 1981.

The Legislature also recognizes that the Supreme Courts of California and of the United States have repeatedly indicated that redistricting is primarily a matter for legislative consideration and determination and that judicial relief becomes appropriate only in those situations when a Legislature fails to redistrict according to constitutional requirements in a timely fashion after having had an adequate opportunity to do so.

Furthermore, an expeditious implementation of redistricting plans is clearly in the best interests of the citizens of this state. For example, the number of representatives in the United States House of Representatives to which California is entitled has increased from 43 to 45. It would be wholly unacceptable to the Legislature and the people of the State of California, and in violation of Article XXI of the California Constitution, as adopted by the voters, and Section 2c of Title 2 of the United States Code to require the election of the two additional representatives in 1982 on a statewide basis.

In order to conduct the 1982 primary election in a constitutionally efficient and timely manner, the Legislature finds that it is imperative that redistricting plans should be implemented without undue delay. This legislative goal will allow the several county clerks, the Secretary of State, candidates, and voters alike involved in the 1982 primary election to prepare for the changes necessitated by redistricting statutes.

The possibilities of judicial delays, involving disparate and numerous trials and appeals to higher courts, jeopardizes the certainty of implementing timely redistricting plans and might threaten to result in the perpetuation of present districts, which are manifestly malapportioned and unconstitutional.

It is recognized by the Legislature, however, that the California Supreme Court possesses original jurisdiction in proceedings for extraordinary relief, including mandamus, under Section 10 of Article VI of the California Constitution. Under this constitutional authority, the California Supreme Court has invoked its original jurisdiction in cases in which the issues presented are of great public importance and must be resolved promptly, and has specifically so acted with regard to redistricting. The California Supreme Court has recognized that cases affecting the values of one person's vote being equal to that of another, the right to vote, and the method of conducting elections are of great public importance and are matters which must be resolved at the earliest possible time. It is also recognized by the California Supreme Court that mandamus is a proper remedy for compelling an officer to conduct an election in accordance with law and a proper method for challenging the constitutionality or validity of statutes.

With the foregoing in mind, it is the intent of the Legislature that this act, among other things, shall serve to facilitate the expeditious judicial review of any redistricting statute enacted pursuant to Article XXI of the California Constitution.

SEC. 2. Notwithstanding any other provision of law to the contrary, any person challenging the validity or constitutionality of a redistricting statute enacted pursuant to Article XXI of the California Constitution shall, within 30 days from the effective date of that redistricting statute, and no later, petition the California Supreme Court for a writ of mandate, specifying the nature of the relief sought, and naming the Secretary of State as respondent.

SEC. 3. Chapter 3 (commencing with Section 30020) of Division 18 of the Elections Code is repealed.

SEC. 4. Chapter 3 (commencing with Section 30020) is added to Division 18 of the Elections Code, to read:

CHAPTER 3. SENATE DISTRICTS

30020. It is the intent of the Legislature in the enactment of this chapter to implement the provisions of Article XXI of the California Constitution.

30021. For purposes of this chapter, references to "CT" or "CTs" shall mean "census tract" and "census tracts", respectively, and references to "ED" or "EDs" shall mean "enumeration district" or "enumeration districts", respectively, as those demographic units are established by the United States Bureau of the Census for the 1980 census as described by maps and publications of the bureau.

In addition, and for the purposes of this chapter, references to "boundaries" or "city limits", respectively, shall refer to the boundaries or limits of the particular city as they existed on April 1, 1980, except as is otherwise expressly provided.

30022. Senate District 1: Senate District 1 shall consist of the whole Counties of Butte, El Dorado, Lassen, Modoc, Nevada, Placer, Plumas, Sierra, Siskiyou, Sutter, and Yuba.

Senate District 2: Senate District 2 shall consist of the whole Counties of Del Norte, Humboldt, Mendocino, and Solano, together with the part of the County of Sonoma contained in the following whole and partial census tracts: CT 1501; CTs 1506.01 through 1511; CTs 1512.01 through 1513.01, except those portions located within the city limits of the City of Rohnert Park; CT 1513.04, except those portions located within the city limits of the City of Rohnert Park and that area north of Keiser Avenue and West of Petaluma Hill Road; CT 1514; CTs 1519 through 1520; CTs 1529.02 through 1530.03; CT 1530.04—That portion located within the city limits of the City of Sebastopol; CTs 1531 through 1540; CTs 1542 through 1543.

Senate District 3: Senate District 3 shall consist of the County of Marin, together with the part of the City and County of San Francisco contained in the following whole census tracts: CTs 101 through 170; CT 176.02; CTs 201 through 204; CTs 205 through 214; CTs 351 through 603.

Senate District 4: Senate District 4 shall consist of the whole Counties of Colusa, Glenn, Lake, Napa, Shasta, Tehama, Trinity, and Yolo, together with the part of the County of Sonoma contained in the following whole and partial census tracts: CTs 1502 through 1505; CTs 1512.01 through 1513.04—Those portions not located within Senate District 2; CTs 1515.01 through 1518; CTs 1521 through 1529.01; CT 1530.04, except that portion located within the city limits of the City of Sebastopol; CT 1539 through 1541.

11 Reapportionment. Senate Districts—Referendum Statute

Argument in Favor of Proposition 11

A "NO" VOTE ON PROPOSITION 11 WILL COST TAXPAYERS MONEY NEEDLESSLY

A "no" vote on Proposition 11 and the other reapportionment plans would needlessly cost California taxpayers over a million dollars. That is the estimated cost of doing yet another set of reapportionment plans. *This simply is not necessary.*

THE SENATE DISTRICTING PLAN IS FAIR AND GIVES YOU BETTER REPRESENTATION

The Constitution requires that the Legislature redraw Senate district lines every 10 years so that the state's 40 Senate districts have equal populations, while dividing as few counties and communities as possible.

Measured by objective standards—that is, the reapportionment plan done by the Supreme Court in 1973—this new Senate plan divides fewer counties and cities than did even the Supreme Court. Minorities, senior citizens, working people, students, indeed all citizens are well represented by the Senate plan.

THE PUBLIC WAS INVOLVED IN THE DISTRICTING PLAN

Over 30 public hearings, hundreds of bipartisan staff hours, and many taxpayer dollars have already been spent to develop this reapportionment plan as required by the California Constitution. This plan has been carefully studied and accepted by state and federal courts.

THIS IS A TWO-PARTY PLAN

This plan *IS* fair to both political parties and all registered voters. It passed the Senate with Republican and Democratic votes.

The Chairman of the Senate Committee on Elections and Reapportionment, a northern California Democrat, supports this plan. The Vice Chairman of the Senate Committee on Elections and Reapportionment, a Republican from southern California, also voted for this plan and commented to the press that it was good for his San Diego area. Additionally, other Republican and Democratic Senators from both northern and southern California voted this plan into law.

YOUR INTEREST IN FAIR REPRESENTATION IS BEING THREATENED BY BIG MONEY INTERESTS

The reapportionment of Senate districts already has been handled responsibly. Federal and state courts have considered the Senate plan and called it acceptable. Now, a group of politicians and their big-business allies are asking the taxpayers of this state to needlessly spend more millions of taxpayer dollars to do yet another reapportionment plan.

The opponents of this proposition already have raised and spent some $1.7 million and have well over $1 million cash on hand left to pay for the media campaign we are now witnessing. Why would special interests spend such money? Because a few politicians who want more political power want to do a new reapportionment plan which will serve only their interests.

DON'T BE FOOLED

Don't be fooled by big advertising campaigns, big money, and misstatements. Stop the increasing pressure and waste of money that special interests are putting upon your system of government.

PLEASE VOTE "YES" ON PROPOSITION 11.

Rebuttal to Argument in Favor of Proposition 11

Don't be fooled by the big-money argument offered by supporters of the Senate reapportionment plan. Your right to vote down this plan exists because 900,000 Californians signed referendum petitions to put this issue on the June ballot. Thousands gave this effort their overwhelming support with small personal contributions, averaging $14 apiece.

This referendum is not the work of "a group of politicians and their big business allies." Thousands of concerned citizens worked hard to place this issue before you for your decision.

Millions of taxpayer dollars have been spent already on reapportionment—by the very politicians who now urge you to approve their handiwork.

YOUR "NO" VOTE SAYS YOU DON'T APPROVE OF THE GAMES THEY PLAYED WITH YOUR MONEY.

Taxpayers in San Mateo, Santa Clara, Orange, Riverside and San Diego Counties will go without representation in the Senate for two years because of a "numbers game" played with your tax dollars. Switches in district numbers disenfranchise more than one million citizens.

There would be no need for this referendum had the politicians in power not abused the reapportionment process. Equitable and fair redistricting of California can be accomplished at minimal expense if the politicians would just follow the California Constitution.

IN 1981 THEY REFUSED TO OBEY THE CONSTITUTION, AND INSTEAD CREATED DISTRICTS THAT WANDER UP AND DOWN THE STATE. YOUR NO VOTE WILL TELL THEM TO GO BACK AND DO THE JOB RIGHT.

Vote no on Proposition 11.

Argument Against Proposition 11

Vote no on Proposition 11.

Vote no to stop a few legislative power brokers from assaulting *your* right to fair elections in the Senate.

Vote no on oddly shaped districts and gerrymanders that are designed to dilute your vote and split communities. Many districts have been gerrymandered in a flagrant attempt to guarantee which party will win the election and to impair your right to have a real choice in Senate elections.

Last year the politicians ignored the people's 1980 vote to stop gerrymanders (Proposition 6, Article XXI, California Constitution). While holding superficial "public" hearings, they secretly created one of the most outrageous gerrymanders in history.

A district's number determines when an election will be conducted. No districts were assigned numbers until immediately before the Senate vote on this plan. This secrecy was necessary in order that the press and public not become aware of or have time to react to a direct attempt to take away the vote of over 3 million citizens. In two districts alone (SD 11 and 37) nearly 1.2 million people in San Mateo, Santa Clara, Orange, Riverside and San Diego Counties will be left without a State Senator for two years.

Using the "numbers game" in Sacramento, the power brokers forced a Senator to run for reelection even though he had already been fairly elected to a four-year term just two years before.

A commonsense look at a California map shows the Legislature's contempt for natural communities. It created a district (SD 12) stretching from near downtown San Jose across the Diablo Mountains and the San Joaquin Valley to the Sierra foothills.

One "gerrymonstered" district (SD 16) links Kings County with Barstow in San Bernardino County and then crosses the Tehachapis into the Altadena-Pasadena area of Los Angeles County. SD 25, the "watershed district," ties Mono County, just south of Lake Tahoe, to Needles, and while skirting the population of San Bernardino adds several Los Angeles suburbs. Another connects mountainous Yosemite with coastal San Luis Obispo and Santa Barbara Counties using part of Monterey County as a narrow bridge.

Orange County is cut into five districts, and a majority of its cities are split. San Diego's suburbs are connected with Imperial County.

A narrow coastal district stretches from the San Luis Obispo county line through Malibu into Pacific Palisades and Woodland Hills.

Almost every major newspaper has published editorial comment urging a no vote.

VOTE NO on Proposition 11 because nearly a million Californians signed a petition in a record 50 days and paid the cost with small donations so you could have a chance to vote on this vital issue.

Vote no to preserve the 70-year right to reject the bad laws of the Legislature and to *send the Legislature a message* to stop this abuse of the reapportionment process.

Rebuttal to Argument Against Proposition 11

WHAT OPPONENTS DON'T SAY

If these propositions fail, *it will cost taxpayers a million dollars.*

THE TRUTH ABOUT NUMBER CHANGES

Any reapportionment *must* result in some areas having district number changes. *Any* legislative district having too many people for fair representation *must* put some into another district with a different number. *This is required by the Constitution and cannot be avoided.* Don't be fooled by opponents calling these changes "gerrymandering."

What the opponents don't say is that *a "no" vote will make unavoidable Senate election delays worse, not better.* Areas that wait four years if you vote "yes," might have to wait six years if you vote "no." Other areas waiting six years could wait eight years.

Contrary to false statements, no Senator's four-year term can be (nor were they) shortened or lengthened.

ODDLY SHAPED DISTRICTS ARE UNAVOIDABLE

Senate lines are constitutionally required to follow oddly shaped city and county boundaries. Senate districts *must* cover large areas, like "San Jose to Stanislaus County," which are *adjoining* counties.

NO SECRECY

Opponents say "power brokers did reapportionment in secrecy." *Not true.* Nearly two-thirds of Senators, both Democrats and Republicans, voted "yes" on this proposition, and the recorded hearings are available to everyone.

DON'T BE FOOLED

Proposition 11 has absolutely *nothing* to do with keeping the 70-year *right* of initiative and referendum.

VOTE "YES"

Save taxpayers one million dollars. A "no" vote causes voters needless two-year delays in voting for Senator. Protect the integrity of democratic government. *Vote "yes."*

12 Reapportionment. Assembly Districts—Referendum Statute

Official Title and Summary Prepared by the Attorney General

REAPPORTIONMENT. ASSEMBLY DISTRICTS. REFERENDUM STATUTE. A "yes" vote approves, a "no" vote rejects, a statute (Chapter 537) enacted by 1981 Legislature revising the boundaries of the 80 Assembly districts and adopting other provisions relating to redistricting and placing an initiative or referendum on the ballot. Summary of Legislative Analyst's estimate of net state and local government fiscal impact: Approval would not affect state or local costs. Rejection, which would require establishment of new Assembly districts in 1983, would result in state costs of $400,000 and county costs of $650,000.

FINAL VOTE CAST BY THE LEGISLATURE ON AB 300 (PROPOSITION 12)

Assembly—Ayes, 45 Noes, 35

Senate—Ayes, 23 Noes, 16

Analysis by the Legislative Analyst

Background:

The State Constitution requires the Legislature to adjust the boundary lines of the 80 State Assembly districts every 10 years, in the year following the federal census. This process is known as "reapportionment" or "redistricting." Its primary purpose is to establish Assembly districts which are reasonably equal in population, consistent with the equal protection provisions of the State and Federal Constitutions (the one person, one vote concept). The State Constitution provides that the districts shall be "single-member" and composed of contiguous territories, numbered consecutively commencing at the northern boundary of the state and ending at the southern boundary. In forming the districts, the integrity of cities, counties, and geographical regions must be respected to the extent possible without violating other constitutional requirements.

Following the 1980 federal census, the Legislature enacted Chapter 537 (AB 300), Statutes of 1981, which revised the boundaries of the 80 Assembly districts. In addition, Chapter 537 required that in order to be placed on the ballot for presentation to the voters at a statewide special election, a referendum must be qualified at least 131 days before the election. It also allowed the Legislature to deposit any redistricting maps it has developed with the Secretary of State in order to facilitate the interpretation of redistricting plans. Finally, the measure specified that each house of the Legislature shall be a party in any judicial action involving redistricting.

Proposal:

This referendum allows the voters to approve or reject the Assembly reapportionment statute adopted in 1981 by the Legislature.

If the statute is approved, the Assembly districts established by the act would remain unchanged until 1991, when the Legislature would be required to establish new boundaries for the districts, based on the results of the 1990 federal census.

If the statute is rejected, the Assembly districts established by the act would be used only for the primary and general elections in 1982. In 1983, the Legislature would be required to adopt new boundaries for the districts which would remain unchanged until 1991. The California Supreme Court, in a recent decision involving this statute, stated that if the voters reject the statute the new districts would have to be "essentially different" from the old districts.

Fiscal Effect:

Approval of this statute would not affect state or local costs.

Rejection of this statute would require the Legislature to establish new Assembly districts in 1983 and would make ineffective the other provisions of the statute. The State General Fund costs associated with establishing new Assembly districts would be approximately $400,000. Counties would incur one-time costs of approximately $650,000 to develop new precinct maps and related election materials for the districts.

Text of Proposed Law

This law proposed by Assembly Bill 300 (Statutes of 1981, Chapter 537) is submitted to the people as a referendum in accordance with the provisions of Article II, Section 9 of the Constitution.

This proposed law expressly amends, repeals and adds existing sections of the Elections Code; therefore, the provisions proposed to be deleted are printed in ~~strikeout type~~ and new provisions proposed to be inserted or added are printed in *italic type* to indicate that they are new.

PROPOSED LAW

SECTION 1. Section 3514 of the Elections Code is amended to read:

3514. Notwithstanding any other provision of law, no initiative *or referendum* shall be placed on a statewide special election ballot which qualifies less than 131 days before the date of the election.

This section shall apply to any referendum certified by the Secretary of State after September 1, 1981.

SEC. 2. Chapter 1 (commencing with Section 30000) of Division 18 of the Elections Code is repealed.

SEC. 3. Chapter 1 (commencing with Section 30000) is added to Division 18 of the Elections Code, to read:

CHAPTER 1. GENERAL

30000. Any maps describing the boundaries of the districts, as contained in this division, which have been prepared by the Legislature or a committee of the Legislature in connection with the enactment of this division may be deposited with the Secretary of State in order to illustrate the boundary lines set forth in this division. Maps deposited with the Secretary of State pursuant to this section may be used by the Secretary of State and the several county clerks for purposes of assisting in the interpretation of this division and to facilitate the Secretary of State and the county clerks in their administrative functions involved in the conduct of elections.

30001. Each house of the Legislature shall be a proper party to, and, if not originally named as a party, shall have the right to intervene in, any action involving the validity or application of any statute which provides for changes in the boundaries of any legislative districts of Members of that particular house.

SEC. 4. Chapter 2 (commencing with Section 30010) of Division 18 of the Elections Code is repealed.

SEC. 5. Chapter 2 (commencing with Section 30010) is added to Division 18 of the Elections Code, to read:

CHAPTER 2. ASSEMBLY DISTRICTS

30010. It is the intent of the Legislature in the enactment of this chapter to implement the provisions of Article XXI of the California Constitution.

If any census tract, block, block group, or enumeration district is omitted, listed more than once, or is only partially provided for, it is the intent of the Legislature that the districts be defined in such a manner as to not omit any area of California from a district and to comply with the standard of Article XXI of the California Constitution requiring that districts be reasonably equal.

30011. For purposes of this chapter, references to "CT" shall mean "census tract", as that demographic unit is established by the United States Bureau of the Census for the 1980 census as described by maps and publications of the bureau. References to "Block", "Blocks", "Block Groups", "Enumeration District", or "Enumeration Districts", refer to those demographic units as established by the United States Census Bureau for the 1980 census as described by maps and publications of the bureau.

In addition, any reference to a "city," "city boundaries," or "city limits" shall refer to the boundaries or limits of the particular city as they existed on April 1, 1980.

Assembly District 1: Assembly District 1 shall consist of the following whole counties: Glenn, Lassen, Modoc, Plumas, Shasta, Siskiyou, Tehama, Trinity, together with the part of Butte County contained within the following whole census tracts: CT 14, CT 15, CT 16, CT 34, CT 35, CT 36.

Assembly District 2: Assembly District 2 shall consist of the following whole counties: Del Norte, Humboldt, Mendocino, together with the part of Sonoma County contained within the following whole census tracts: CT 1529.01, CT 1530.01, CT 1530.02, CT 1530.03, CT 1530.04, CT 1531, CTs 1532 through 1543.

Assembly District 3: Assembly District 3 shall consist of the following whole counties: Colusa, Nevada, Sierra, Sutter, Yuba, together with the part of Butte County contained within the following whole census tracts: CT 1, CT 2, CT 3, CT 4, CT 5, CT 6, CT 7, CT 8, CT 9, CT 10, CT 11, CT 12, CT 13, CT 17, CT 18, CT 19, CT 20, CT 21, CT 22, CT 23, CT 24, CT 25, CT 26, CT 27, CT 28, CT 29, CT 30, CT 31, CT 32, CT 33.

Assembly District 4: Assembly District 4 shall consist of the whole County of Solano, together with the part of Yolo County contained within the following whole census tracts:

Whole Census Tracts: CT 101.01, CT 102.01, CT 102.02, CT 103, CT 104, CT 105.01, CT 105.03, CT 105.04, CT 105.05, CT 105.06, CT 106.02, CT 106.03, CT 106.04, CT 107.01, CT 107.02.

Assembly District 5. Assembly District 5 shall consist of the part of Sacramento County contained within the following whole and partial census tracts:

Whole Census Tracts: CT 72.01, CT 72.02, CT 72.03, CT 72.04, CT 74.02, CT 74.03, CT 74.04, CT 74.06, CT 74.07, CT 74.08, CT 80.01, CT 80.03, CT 81.02, CT 81.03, CT 81.05, CT 81.06, CT 81.07, CT 81.08, CT 81.09, CT 81.10, CT 81.11, CT 81.12, CT 82.02, CT 82.03, CT 82.04, CT 82.05.

Partial Census Tracts: CT 59.01—That portion contained within the following Blocks: 101, 102, 104, 106, 107, 110, 111, 112, 115, 119, 120, 121, 122, 123, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, 134, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 216, 217, 218, 219, 221, 222, 223, 229, 230, 231, 232, and 233; CT 64—That portion contained within the following Blocks: 101, 102, 103, 104, 105, 106, 107, 108, 204, 207, 208, 216, 218, 219, 220, 221, 601, 605, 610, 613, and 614; CT 65—That portion contained within the following Blocks: 101, 102, 103, 105, 106, 108, 109, 110, 111, 120, 121, 505, 509, 510, 511, 515, and 516; CT 67—That portion contained within the following Blocks: 101, 104, 106, 107, 108, 109, 111, 112, 113, 114, 115, 116, 117, 118, 119, 120, 121, 122, 126, 127, 129, 140, 141, 142, 143, 144, 145, 146, and 148; CT 74.09—That portion contained within the following Blocks: 342, 343, 349, 350, 351, 352, 362, 363, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 501, 502, 503, 504, 505, 506, 507, 508, and 509; CT 75—That portion contained within the following Blocks: 101, 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 201, 202, 203, 204, 205, 206, 207, 208, 209, 301, 302, 303, 304, 305, 306, 307, 410, 411, 412, 413, 414, 415, 416, 417, 418, 419, 501, 502, 503, 510, 520, 601, 602, 701, 702, 703, 704, 705, 706, 707, 708, 709, and 710; CT 76—That portion contained within the following Blocks: 102, 104, 105, 106, 107, 108, 109, 110, 111, 130, 131, 132, 133, 134, 135, 136, and 137; CT 79.01—That portion contained within the following Blocks: 302, 303, 305, 306, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 322, 403, 404, 405, 406, 407, 408, 411, 412, 413, 414, 415, 416, 420, 421, 422, 423, 424, 425, 426, 427, and 428; CT 79.02—That portion contained within the following Blocks: 102, 103, 104, 105, 106, 107, 108, 109, 110, 111, 112, 114, 115, 116, 117, 118, 119, 120, 121, 122, 123, 124, 125, 126, 128, 129, 202, 203, 204, 205, 206, 207, 208, 209, 210, 211, 212, 213, 214, 215, 218, 219, 220, 221, 222, 223, 224, 225, 604, 606, 607, 608, 609, 610, 620, 621, 631, 701, 702, 703, 705, 706, 709, 710, 711, 712, 717, 720, 721, 722, 723, 724, 725, 726, 727, 728, 729, 730, 731, 732, 733, 734, 735, 736, 737, 738, and 739; CT 80.04—That portion contained within the following Blocks: 207, 209, 214, 215, 216, 217, 218, 220, 306, 307, 309, 311, 312, 313, 314, 315, 316, 317, 318, 319, 320, 321, 401, 402, 403, 404, 405, 406, 407, 408, 409, 410, 411, 412, 413, 414, 415, 416, 701, 702, 763, 706, 707, 708, 709, 710, 711, and 712; together with the part of Placer County contained within the following whole census tracts: CT 203, CT 204, CT 205, CT 206.01, CT 206.02, CT 206.03, CT 207, CT 208, CT 209, CT 210, CT 211, CT 215.

Assembly District 6: Assembly District 6 shall consist of the part of Sacramento County contained within the following whole and partial census tracts:

12 Reapportionment. Assembly Districts—Referendum Statute

Argument in Favor of Proposition 12

We urge you to vote *YES* on Proposition 12 to ensure that all Californians are properly represented in the Assembly and to uphold the fair and constitutional Assembly redistricting plan which was passed by both houses of the Legislature and signed by the Governor.

The Assembly redistricting plan—Assembly Bill 300—was adopted after extensive statewide hearings and reflects the various suggestions received from the public. The process of drawing district lines in a state as diverse as California is necessarily a difficult one. Any reasonable plan must equitably balance strong, competing interests with the ultimate goal of providing the public with the best opportunity to affect the governmental process. *AB 300 is such a plan.*

Here are some facts to consider in casting your vote on this important measure:

1. This plan is one which meets the constitutional test of *one person—one vote,* which is so essential to our system of democracy. It repeals the old, outdated districts which have large disparities in population and which are clearly unconstitutional. For example, under the old plan, there are 530,643 people in the 76th District (San Diego County) and only 224,488 in San Francisco's 16th District. Under the new plan, the difference between the smallest and largest districts is less than 4 percent.
2. In its final form, this plan reflects the testimony of many groups and individuals representing the diversity of California. Significantly, this plan was also submitted to and *approved by the U.S. Department of Justice.*
3. In response to numerous lawsuits, the State Supreme Court recently held that the districts set out in this plan should be used for the 1982 elections, since the old, outdated districts are inadequate, unconstitutional and do not serve the public interest.

It would be unfortunate if false concerns raised about this plan were to outweigh fundamental, constitutional guarantees such as equality of representation.

AB 300 is a fair and solid redistricting plan. We again urge your *YES* vote.

Rebuttal to Argument in Favor of Proposition 12

BY REJECTING PROPOSITION 12, YOU WILL NOT BE RESTORING THE OLD, OUTDATED ASSEMBLY DISTRICTS. INSTEAD, YOU WILL BE FORCING THE POLITICIANS TO DRAW NEW DISTRICTS THAT ARE FAIR AND CONSTITUTIONAL.

The arguments made in support of the Assembly reapportionment plan are distorted and misleading. For example:

• The plan is not the result of "extensive statewide hearings." It was not even seen until one week before its final passage. The "hearings" on this and the other reapportionment plans were held in a small room off the Assembly floor.

• The plan fails the constitutional test of "one person—one vote." The plan was so riddled with errors when passed that more than 50,000 people in one county were left without Assembly representation.

• The U.S. Justice Department "approved" the plan only for its effect on a limited number of voters in four of our smallest counties. The federal government takes no stand on the merits of this or any other redistricting plan.

• The California Supreme Court imposed this plan for 1982 by a slim one-vote margin in a decision that "was almost certainly a political one," according to one California newspaper. At no time did the court pretend the Assembly reapportionment plan was "in the public interest."

• THE PLAN IGNORES NATURAL COMMUNITIES, FRAGMENTS CITIES AND COUNTIES, AND PLAYS POLITICAL GAMES WITH YOUR RIGHT TO FAIR REPRESENTATION IN THE ASSEMBLY. IT DESERVES DEFEAT.

Vote "NO" on Proposition 12 and put an end to reapportionment games played at your expense.

Argument Against Proposition 12

The respected *California Poll* recently found that 80 percent of all California voters disapprove of the Legislature's arrogant manipulation of our reapportionment process.

A look at the new districts created by this year's Assembly reapportionment plan shows why.

As the Sacramento Union noted, "the Assembly plan avoids the chief element of any 'fair' reapportionment plan—the creation of balanced, competitive seats. It attempts to determine the outcome of next year's elections and those for the remainder of the decade in advance."

The big losers under the Assembly reapportionment plan are California voters, whose best interests were totally ignored by politicians scrambling to increase their own political power.

The Assembly plan is so abusive that it has been roundly criticized by nearly every newspaper, radio and television station in the state.

Fortunately, California voters enjoy a constitutional right to reject any law enacted by the Legislature, including the Assembly reapportionment plan. The plan is an abuse of power and should be rejected because:

- The plan ignores constitutional requirements to protect the integrity of city, county and regional boundaries. Districts have been drawn from one part of the state to another, fragmenting cities and counties, while linking voters who have virtually nothing in common.
- The plan was drawn to protect incumbent politicians, both Republicans and Democrats, at the direct expense of voters and two-party competition.
- The plan was drafted in secret, then rushed through the Legislature without fair public hearings. The plan was so hastily drafted that it contained 277 errors requiring 434 changes after it became law.
- The plan puts politics above fairness, and partisan self-interest above good government.

In response to the gross unfairness of this year's Assembly reapportionment plan, over 900,000 California voters signed referendum petitions to put Proposition 12 on the ballot. By voting "no" on Proposition 12, you can reject this unfair plan and put an end to "politics as usual."

A "no" vote is the only way to nullify this bad legislation and to protect yourself and all the people of California against its unjust effects. The politicians have flagrantly abused our reapportionment process by putting themselves ahead of the public's best interests.

Your "no" vote on Proposition 12 will eventually lead to the creation of new Assembly districts that are fair and reasonably drawn.

Vote "no" on Proposition 12 and help make reapportionment a process that serves people, not politicians.

Rebuttal to Argument Against Proposition 12

The opponents of Proposition 12 don't want reform; they want revenge. The *real* opponents of Proposition 12 are not the people of California, but a handful of disgruntled politicians and their big money backers.

The opponents don't want to talk about the hard facts:

1. The Constitution requires that Assembly districts minimize the division of cities. The Assembly plan splits only 5 percent of those cities within Assembly districts and reunites 12 cities which were previously divided.
2. The Constitution requires that reapportionment minimize the division of counties into Assembly districts. The Assembly plan divides only eight of those counties which are smaller than an Assembly district.
3. The opponents don't want to talk about the fact that the new districts meet the strict population requirements of one person, one vote; nor do they mention that the U.S. Justice Department has certified the Assembly plan for compliance with the Voting Rights Act.

The opponents of Proposition 12 don't want to discuss the facts, because they have invested over a million dollars of political money to confuse the public. They hope that out of this confusion the constitutional actions of the Legislature will be thwarted and they will have a chance to carve up the state to suit themselves. The real opponents to Proposition 12 are the few politicians who masterminded the referendum to cheat the public out of equal representation.

Don't be misled. A "yes" vote means equal representation; a "no" vote means a step backward.

Summary of California Inheritance and Gift Tax Laws Repealed by Propositions 5 and 6

INHERITANCE TAX

1. General

The inheritance tax is imposed on the transfer of property from a decedent (a person who died) to the beneficiaries (persons receiving property from the decedent). Each beneficiary is taxed only for that portion of the estate which he or she receives. The exemptions allowed and the tax rates vary according to the relationship of the beneficiary to the decedent. Those beneficiaries most closely related to the decedent receive a more favorable tax treatment than those unrelated to the decedent. Under the California Inheritance Tax Law, there is generally no tax on transfers to the surviving spouse of the decedent.

2. Property Subject to the Tax

Real property (e.g., land and buildings) and tangible personal property (e.g., vehicles and jewelry) permanently located in California are subject to the tax regardless of the residence of the decedent. In the case of a decedent who was a resident of California at the date of death, all of his or her intangible personal property (e.g., bank and savings accounts, stock, etc.) is subject to the tax. If, at the date of death, the decedent resided in the United States but outside of California, his or her intangible personal property is not subject to the tax. If the decedent resided outside of the United States at the date of death, his or her intangible personal property in California is subject to the tax.

3. Transfers Subject to the Tax

The tax is imposed upon the transfer of property from the decedent to the beneficiaries. This transfer may be made according to (a) a will left by the decedent, (b) the laws which identify the order of inheritance in cases where there is no will, (c) joint tenancy with right of survivorship to the extent that the property was acquired with the decedent's assets, or (d) certain transfers made during the lifetime of the decedent. This last category includes transfers in which the decedent has reserved the right to income for life and transfers in which the decedent has reserved for life the power to revoke the transfer or control of the property.

4. Valuation

For purposes of determining the amount of tax due, the property which is subject to the tax is generally valued at its fair market value on the date of death unless it is used for farming purposes or in a family business. In these cases an alternative method of valuation is authorized which normally will result in a lower valuation based on the special use of the property.

5. Deductions

The tax is calculated on the net value of the property transferred after deducting from the appraised value of the property certain expenses paid by the estate of the decedent. The allowable deductions include:

1. The funeral expenses and expenses of last illness paid after death;
2. Legally enforceable debts of the decedent;
3. State and local taxes which at the date of death are a lien upon the property transferred;
4. Expenses of administering the estate of the decedent, including attorney's fees, executor's commissions (an executor is the person named in the will to administer the estate of the decedent) and inheritance tax referee fees (the function of these referees is discussed in Section 11);
5. Certain casualty losses to property which occur after the decedent's death and before either the date the tax is determined or a year after death, whichever is earlier.

6. Exclusions

Certain transfers are expressly excluded from the imposition of the tax. The most frequently used of these exclusions are the charitable exclusion, the insurance exclusion, and the public pension or retirement plan exclusion. In addition, most transfers between spouses, where the decedent spouse died on or after January 1, 1981, are not subject to the tax.

7. Specific Exemption

In addition to the exclusion from tax of property transferred to the decedent's spouse, the law provides a specific exemption for all other beneficiaries. The specific exemption varies according to the relationship of the beneficiary to the decedent, as follows:

Table 1
Specific Inheritance Tax Exemptions

	Class of beneficiary	*Specific exemption*
A	Minor child (includes adopted)	$40,000
	Adult child (18 and over), grandchild, parent, grandparent (by blood or adoption) Mutually acknowledged child Descendant of mutually acknowledged child	20,000
	Orphan under age 18	10,000 [a]
B	Brother, sister (excludes brothers- or sisters-in-law) Nephew or niece (by blood or adoption) Wife or widow of son, husband, or widower of daughter	10,000
C	Strangers in blood Relationships not specified above (e.g., in-laws, aunts, uncles, cousins)	3,000

[a] The exemption is multiplied by the number of years the orphan is under the age of 21.

8. Tax Rates

The tax rates are progressive. As the value of the property received by each beneficiary increases, the rate of tax as to that beneficiary also increases. The tax rates are shown below.

Table 2
California Inheritance Tax Rates

	Class of beneficiary and rates		
Taxable amount of inheritance[a]	*A*	*B*	*C*
On the amount from:			
$0 to $25,000	3%	6%	10%
25,001 to 50,000	4	10	14
50,001 to 100,000	6	12	16
100,001 to 200,000	8	14	18
200,001 to 300,000	10	16	20
300,001 to 400,000	12	18	22
On the amount over:			
$400,000	14	20	24

[a] The rate brackets are applied to the total taxable amount of the inheritance *before* deducting the amount of the specific exemption. That is, the exemption is taken out at the lowest rate bracket or brackets.

9. Credits

A credit against the inheritance tax is allowed in the following two situations:

a. *Gift Tax Credit.* A credit is allowed for the gift tax paid when the transfer subject to inheritance tax was made during the lifetime of the decedent (for example, a transfer in which the decedent retained the right to receive the income from the property for his or her life) and a gift tax was paid at the date of the transfer.

b. *Previously Taxed Property Credit.* In cases where the decedent received property from a prior decedent and the date of death of the present decedent is within five years of the date of death of the prior decedent, full credit is allowed for the California inheritance tax which the present decedent paid upon the receipt of property from the prior decedent. To qualify for the previously taxed property credit, the present decedent must have been a Class A beneficiary of the prior decedent and the property of the present decedent must pass to Class A beneficiaries.

10. "Pickup" Tax

Under the Federal Estate Tax Law, a credit is allowed for inheritance or estate taxes paid to a state. The amount of the credit is determined under the provisions of the Federal Estate Tax Law. If the amount of the state inheritance tax due is less than the credit allowed under the federal law, the California law imposes an estate tax ("pickup" tax) in an amount equal to the difference between the federal credit and the state inheritance tax imposed.

The amount of estate tax payable to the federal government is reduced by an amount equal to the credit allowed for the state inheritance and "pickup" taxes. Therefore, the combined state and federal death tax burden is not increased.

11. Determination of Inheritance Tax Due

If the decedent's estate is subject to probate administration, the inheritance tax is determined by the probate court in the course of administering the estate. The court appoints an inheritance tax referee who appraises the noncash assets of the estate and files with the court a report showing the total value of the estate, the net taxable value passing to each beneficiary, the amount of inheritance tax due from each beneficiary, and the total inheritance tax due. If the executor or any beneficiary disagrees with the inheritance tax referee's valuation of the estate or method of computing the inheritance tax due, objections to the report may be filed with the court.

If the estate of the decedent is not subject to probate administration, the tax may be determined administratively by the State Controller's office. An inheritance tax referee is assigned to appraise the noncash assets and prepare the tax determination. If any person liable for tax disagrees with the determination, he or she may petition the court for a determination of tax. The tax is then determined by the court in the same manner as in a probate estate.

12. Payment of the Tax

Unless the will of the decedent provides otherwise, each beneficiary is liable for that portion of the tax due from him or her.

13. Time of Payment and Interest for Late Payment

The tax becomes delinquent nine months from the date of death. Any delinquent tax accrues interest from the delinquency date until the tax, plus interest, is paid in full. The normal rate of interest for a delinquent payment of inheritance tax is 12 percent per annum.

In several instances, however, the law provides for a deferred payment of inheritance tax and an adjusted rate of interest. The adjusted rate of interest is indexed to the prime rate charged by banks and is readjusted every two years, up to a maximum of 12 percent per annum. In general, deferred payment may be allowed if (a) a substantial portion of the decedent's estate includes a closely held business or principal place of residence, (b) payment within the normally allotted time period would result in undue hardship, or (c) there is a showing of reasonable cause to defer payment. In such cases, the payment of taxes may be deferred for a specified period of time, which, depending on the basis for deferment, varies from 5 to 15 years.

14. Interest on Refunds

If there is an overpayment of inheritance tax due, interest is allowed on the refund of the excess payment at a specified rate, not to exceed 7 percent per annum.

GIFT TAX

1. General

The gift tax is imposed on gifts made during one's lifetime. Basically, the provisions of the Gift Tax Law parallel the provisions of the Inheritance Tax Law. The tax is measured by the value of the gifts made to each

donee (person receiving the gift). That is, a separate gift tax computation is made for the gifts to each donee, rather than making one computation based on the total value of the gifts from a single donor (the person giving the gift) to all donees. The specific exemptions and rates of tax are the same as under the Inheritance Tax Law.

2. Valuation

For purposes of the Gift Tax Law, the property which is the subject of the gift is valued at its market value on the date of gift. Unlike the Inheritance Tax Law (see Section 4), the Gift Tax Law does not contain a provision for the special use value of real property.

3. Exclusions

Gifts made to the spouse of the donor during the donor's lifetime are excluded from the gift tax. The Gift Tax Law also excludes gifts made to government agencies and charitable organizations and gifts of intangible personal property belonging to a donor who resided in a territory or state of the United States, other than California, at the date of gift. The Gift Tax Law does not provide an exclusion for a gift of insurance, nor does it provide an exclusion for gifts of an interest in a public pension or retirement plan.

The Gift Tax Law does provide a $3,000 annual exclusion for gifts to each donee. That is, in each year a donor may make gifts of up to $3,000 to each donee without incurring any gift tax.

4. Gift Tax Returns and Determination of the Tax

Under the Gift Tax Law, the donor is required to file quarterly with the state a gift tax return reporting the gift or gifts made.

5. Payment of Tax

Both the donor and the donee of a gift are liable for the gift tax, but the donor has primary responsibility for the tax.

The tax becomes delinquent on the last day allowed for filing a return. Any delinquent gift tax accrues interest at the rate of 12 percent per annum until the tax, plus interest, is paid in full.

The Gift Tax Law does not contain provisions for installment payments, nor does it allow for an adjusted rate of interest for late payment of the tax.

6. Penalties

If a gift tax return is not filed when due, it is subject to a penalty equal to 5 percent of the tax owed. Additional penalties are imposed in cases involving such matters as fraud or willful failure to file a return.

7. Interest on Refunds

In the case of overpayment of the gift tax due, interest is allowed on the refund of the excess payment. If the overpayment is due to an error or mistake on the part of the taxpayer, the interest on the refund is computed at a specified rate, not to exceed 7 percent per annum. If the overpayment does not reflect an error or mistake on the part of the taxpayer, interest on the refund is computed at the rate of 12 percent per annum. Interest is allowed from the date on which the payment of the tax would have become delinquent, if not paid, or the date of actual payment, whichever is later.

Proposition 8—Analysis—*Continued from page 32*

ting a crime to be released without bail upon their written promise to appear in court when required. The failure to appear in court as promised can result in additional criminal charges being filed against the accused.

Court decisions have held that the purpose of bail is to assure that the defendant will appear in court to stand trial, rather than to protect the public's safety.

This measure would amend the State Constitution to give the courts discretion in deciding whether to grant bail. It would, however, continue the prohibition on bail in felony cases punishable by death when the proof of guilt is evident or the presumption of guilt is great.

In addition, the measure would add to the State Constitution a provision requiring the courts—in fixing, reducing, or denying bail or permitting release without bail—to consider the same factors that they now are required by statute to consider in fixing the amount of bail. It would also make protection of the public's safety the primary consideration in bail determinations. Moreover, the measure would prohibit the courts from releasing without bail persons charged with certain felonies.

Finally, the measure would require the court to state for the record its reasons for deciding to (a) grant or deny bail or (b) release an accused person without bail.

Prior Convictions. The measure would amend the State Constitution to require that information about prior felony convictions be used without limitation to discredit the testimony of a witness, including that of a defendant. Under current law, such information may be used only under limited circumstances.

Longer Prison Terms. Under existing law, a prison sentence can be increased from what it otherwise would be by from one to ten years, depending on the crime, if the convicted person has served prior *prison terms,* and a life sentence can be given to certain repeat offenders. Convictions resulting in probation or commitment to the Youth Authority generally are not considered for the purpose of increasing sentences, and there are certain limitations on the overall length of sentences.

This measure includes two provisions that would increase prison sentences for persons convicted of specified felonies. First, upon a second or subsequent conviction for one of these felonies, the defendant could receive, on top of his or her sentence, an *additional* five-year prison term for each such prior conviction, regardless of the sentence imposed for the prior conviction. This provision would not apply in cases where other provisions of law would result in even longer pris-

on terms. Second, any prior felony conviction could be used without limitation in calculating longer prison terms.

Defenses of Diminished Capacity and Insanity. The measure would prohibit the use of evidence concerning a defendant's intoxication, trauma, mental illness, disease, or defect for the purpose of proving or contesting whether a defendant had a certain state of mind in connection with the commission of a crime. Legislation enacted in 1981 significantly limited use of this type of evidence.

This measure would provide that in order to be found not guilty by reason of insanity a defendant must prove that he or she (1) was incapable of knowing or understanding the nature and quality of his or her actions and (2) was incapable of distinguishing right from wrong at the time of the crime. These provisions could increase the difficulty of proving that a person is not guilty by reason of insanity.

If this measure is approved, evidence of diminished mental capacity or a mental disorder could be considered at the time of sentencing.

Victim Statements. Under existing law, statements of victims or next of kin are requested for various reports which are submitted to the court. In many cases, parole boards are not required to notify victims or next of kin about hearings.

This measure would require that the victims of any crimes, or the next of kin of the victims if the victims have died, be notified of (1) the sentencing hearing and (2) any parole hearing (if they so request) involving persons sentenced to state prison or the Youth Authority. During the hearings, the victim, next of kin, or his or her attorney would have the right to make statements to the court or hearing board. In addition, this measure would require the court or hearing board to state whether the convicted person would pose a threat to public safety if he or she were released on probation or parole.

Plea Bargaining. The measure would place restrictions on plea bargaining in cases involving specified felonies and offenses of driving while under the influence of an intoxicating substance. "Plea bargaining" is a term used to describe situations in which the defendant agrees to plead guilty in exchange for a reduced charge or sentence.

Exclusion of Certain Persons from Sentencing to the Youth Authority. Under current law, persons who commit certain sex crimes at the age of 18 years or older and some other youthful offenders are not sent to the Youth Authority. This measure would prohibit sending to the Youth Authority persons who were 18 years of age or older at the time they committed murder, rape, or other specified felonies. As a result, they would be sentenced to state prison or local jails, or receive probation.

Mentally Disordered Sex Offenders. This measure contains a provision which would have changed the law concerning the treatment of certain sex offenders. However, legislation enacted in 1981 achieved the same purpose. Consequently, this provision has no effect.

Fiscal Effect:

The net fiscal effect of this measure cannot be determined with any degree of certainty. This is because the fiscal effect would depend on many factors that cannot be predicted. Specifically, it would depend on:

- how various provisions are implemented by the Legislature, local governments, and school districts,
- how the rights established by the measure are enforced by the courts,
- how many persons are incarcerated in state prison or detained in county jails for longer periods of time,
- how the various provisions affect criminal behavior (that is, to what extent the measure has a deterrent effect), and
- how the criminal justice system reacts to the measure.

We conclude, however, that approval of the measure would result in major state and local costs. This is because the measure, taken as a whole, could:

- increase local administration costs (for example, there would be a cost to implement the restitution procedures and to notify victims of sentencing hearings),
- increase state administrative costs (for example, there would be a cost to notify victims of parole hearings),
- increase claims against the state and local governments relating to enforcement of the right to safe schools,
- increase school security costs to provide safe schools,
- increase the cost of operating county jails by increasing the jail populations (for example, more persons accused of crimes could be denied bail in order to assure public safety and more persons could be detained in jail while awaiting trial due to the elimination of plea bargaining),
- increase court costs (for example, costs could increase due to more extensive bail hearings and the elimination of plea bargaining), and
- increase the cost of operating the state's prison system by increasing the prison population (for example, by increasing terms for certain repeat offenders). Based on various assumptions, the Department of Corrections estimates that the provisions that would result in longer prison terms for repeat offenders would lengthen the terms of at least 1,200 persons each year. The department states that this estimate may be low for several reasons. In addition, the measure's impact on conviction and sentencing trends and patterns cannot be predicted. As a result of these uncertainties, we cannot estimate how many persons would serve longer prison terms if this measure is approved. If, however, 1,200 persons per year were to receive the new sentences instead of the sentences provided under current law, annual state prison operating costs would increase by about $47 million (in 1982–83 prices) by the mid-1990s. This cost estimate assumes that the state's prison population would be about 3,600 higher than under existing law. In addition,

the state might need to spend up to $280 million (in 1982 prices) to construct facilities to house these additional prisoners. The construction cost estimate assumes that existing standards for prisons would be followed when the new facilities were constructed, and that the custody levels (for example, maximum security) required for the additional inmates would match current housing patterns. To the extent that some of the additional prisoners could be housed by crowding existing facilities, both the estimated operating and construction costs could be reduced.

Proposition 8—Text—*Continued from page 33*

the statements of victims and next of kin made pursuant to this section and shall state on the record its conclusion concerning whether the person would pose a threat to public safety if granted probation.

The provisions of this section shall not be amended by the Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.

(b) Section 3043 is added to the Penal Code, to read:

3043. Upon request, notice of any hearing to review or consider the parole eligibility or the setting of a parole date for any prisoner in a state prison shall be sent by the Board of Prison Terms at least 30 days before the hearing to any victim of a crime committed by the prisoner, or to the next of kin of the victim if the victim has died. The requesting party shall keep the board apprised of his or her current mailing address.

The victim or next of kin has the right to appear, personally or by counsel, at the hearing and to adequately and reasonably express his or her views concerning the crime and the person responsible. The board, in deciding whether to release the person on parole, shall consider the statements of victims and next of kin made pursuant to this section and shall include in its report a statement of whether the person would pose a threat to public safety if released on parole.

The provisions of this section shall not be amended by the Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.

(c) Section 1767 is added to the Welfare and Institutions Code, to read:

1767. Upon request, written notice of any hearing to consider the release on parole of any person under the control of the Youth Authority for the commission of a crime or committed to the authority as a person described in Section 602 shall be sent by the Youthful Offender Parole Board at least 30 days before the hearing to any victim of a crime committed by the person, or to the next of kin of the victim if the victim has died. The requesting party shall keep the board apprised of his or her current mailing address.

The victim or next of kin has the right to appear, personally or by counsel, at the hearing and to adequately and reasonably express his or her views concerning the crime and the person responsible. The board, in deciding whether to release the person on parole, shall consider the statements of victims and next of kin made pursuant to this section and shall include in its report a statement of whether the person would pose a threat to public safety if released on parole. The provisions of this section shall not be amended by the Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.

SEC. 7. *Limitation of Plea Bargaining.* Section 1192.7 is added to the Penal Code, to read:

1192.7 (a) Plea bargaining in any case in which the indictment or information charges any serious felony or any offense of driving while under the influence of alcohol, drugs, narcotics, or any other intoxicating substance, or any combination thereof, is prohibited, unless there is insufficient evidence to prove the people's case, or testimony of a material witness cannot be obtained, or a reduction or dismissal would not result in a substantial change in sentence.

(b) As used in this section "plea bargaining" means any bargaining, negotiation, or discussion between a criminal defendant, or his or her counsel, and a prosecuting attorney or judge, whereby the defendant agrees to plead guilty or nolo contendere, in exchange for any promises, commitments, concessions, assurances, or consideration by the prosecuting attorney or judge relating to any charge against the defendant or to the sentencing of the defendant.

(c) As used in this section "serious felony" means any of the following:

(1) Murder or voluntary manslaughter; (2) mayhem; (3) rape; (4) sodomy by force, violence, duress, menace, or threat of great bodily harm; (5) oral copulation by force, violence, duress, menace, or threat of great bodily harm; (6) lewd acts on a child under the age of 14 years; (7) any felony punishable by death or imprisonment in the state prison for life; (8) any other felony in which the defendant inflicts great bodily injury on any person, other than an accomplice, or any felony in which the defendant uses a firearm; (9) attempted murder; (10) assault with intent to commit rape or robbery; (11) assault with a deadly weapon or instrument on a peace officer; (12) assault by a life prisoner on a noninmate; (13) assault with a deadly weapon by an inmate; (14) arson; (15) exploding a destructive device or any explosive with intent to injure; (16) exploding a destructive device or any explosive causing great bodily injury; (17) exploding a destructive device or any explosive with intent to murder; (18) burglary of a residence; (19) robbery; (20) kidnapping; (21) taking of a hostage by an inmate of a state prison; (22) attempt to commit a felony punishable by death or imprisonment in the state prison for life; (23) any felony in which the defendant personally used a dangerous or deadly weapon; (24) selling, furnishing, administering or providing heroin, cocaine, or phencyclidine (PCP) to a minor; (25) any attempt to commit a crime listed in this subdivision other than an assault.

(d) The provisions of this section shall not be amended by th Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.

SEC. 8. *Sentencing.* Section 1732.5 is added to the Welfare and Institutions Code, to read:

1732.5 Notwithstanding any other provision of law, no person convicted of murder, rape or any other serious felony, as defined in Section 1192.7 of the Penal Code, committed when he or she was 18 years of age or older shall be committed to Youth Authority.

The provisions of this section shall not be amended by the Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.

SEC. 9. *Mentally Disordered Sex Offenders.* Section 6331 is added to the Welfare and Institutions Code, to read:

6331. This article shall become inoperative the day after the election at which the electors adopt this section, except that the article shall continue to apply in all respects to those already committed under its provisions.

The provisions of this section shall not be amended by the Legislature except by statute passed in each house by rollcall vote entered in the journal, two-thirds of the membership concurring, or by a statute that becomes effective only when approved by the electors.

SEC. 10. If any section, party, clause, or phrase of this measure or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the measure which can be given effect without the invalid provision or application, and to this end the provisions of this measure are severable.

Proposition 9—Analysis—*Continued from page 36*

(c) Enlarge East Branch of the California Aqueduct	161
6. Wastewater reclamation and water conservation programs	Unknown
7. Mid-Valley Canal Unit (San Joaquin Valley)	633
8. Water transportation facilities from the delta to San Joaquin, San Francisco, and San Mateo Counties	Unknown
9. Supplemental water supply facilities from the Federal Central Valley Project to Alameda and Contra Costa Counties..	Unknown
	$3,090 plus unknown additional costs

Because the planning and construction of the facilities in SB 200 will occur over the next 20 years, the ultimate cost of these facilities will be substantially higher than the amounts shown in Table 1, due to inflation.

The Department of Water Resources proposes to finance the construction of the facilities with funds from the following sources:

1. Unused authority to issue general obligation bonds amounting to $167 million. This authority was provided by the Burns-Porter Act. (These general obligation bonds are backed by the state's pledge to use its taxing power to pay the principal and interest on the bonds. Project revenues have been adequate to pay these costs to date and are expected to be adequate in the future.)

2. Tidelands oil revenues in the amount of $30 million each year which existing law earmarks for the State Water Project.

3. Proceeds from the sale of additional revenue bonds which will be repaid from future water and power sales. (Revenue bonds are not backed by the state's taxing power; instead, they are backed by the project revenues dedicated to the payment of principal and interest on the bonds.)

4. Any State Water Project revenues which will not be needed to repay existing State Water Project bonds or for operating and maintenance expenses.

The ability of the state to finance the construction of the facilities in Table 1 will depend on the availability of surplus State Water Project revenues, and the ability of the state to sell the water or power revenue bonds.

The department's planning has always assumed that the federal government would help finance the construction of certain facilities, such as the Peripheral Canal and the Glenn Reservoir, because these facilities would meet both federal and state water needs. Since SB 200 does not make the construction of these facilities contingent on federal participation, the full costs of the facilities authorized in the bill would be a state responsibility unless the federal government decides to participate.

SB 200 contains additional provisions relating to (a) the maintenance of water quality and fisheries within the Sacramento-San Joaquin Delta and San Francisco Bay, and (b) the operation of delta facilities in cooperation with delta water agencies and/or the federal government.

SB 200 also makes construction of several facilities contingent on certain conditions:

- Construction of the Peripheral Canal and the Mid-Valley Canal cannot begin until the Department of Water Resources and the Department of Fish and Game enter into a permanent agreement for the protection of the fish and wildlife in the Sacramento-San Joaquin Delta, the Suisun Marsh, and the San Francisco Bay.
- Authorizations for Los Vaqueros, groundwater storage, Glenn Reservoir Diversion, and Mid-Valley Canal units are conditioned on the completion of favorable engineering, environmental, economic, and financial feasibility studies.

Assembly Constitutional Amendment 90. Assembly Constitutional Amendment 90 (ACA 90) was approved by the voters as Proposition 8 on the November 1980 ballot and will become effective if and when SB 200 takes effect. This amendment (1) restricts the authority of the Legislature to modify certain provisions of SB 200 and other portions of existing law pertaining to fish and wildlife resources, water quality, and water rights in the Sacramento-San Joaquin Delta and San Francisco Bay and (2) restricts the additional export of water from basins subject to the California Wild and Scenic Rivers Act. The measure also requires that legal actions affecting the provisions of law enacted by SB 200 be heard in Sacramento County Superior Court, that the legal actions generally be brought within one year and that the state reimburse the county for its actual court costs.

Proposal:

This referendum measure asks the voters to approve or reject SB 200. Rejection would eliminate the *explicit* authorization for the facilities and programs listed in Table 1 as well as the environmental provisions added to the Burns-Porter Act by SB 200. If SB 200 is approved, both SB 200 and ACA 90 will become fully effective immediately. If SB 200 is rejected, neither will be effective.

Fiscal Effect:

SB 200. The State Water Project has been planned and operated to be self-supporting. Users of water and power supplied by the project are required under their present contracts to repay water and power costs through user charges. Therefore, implementation of SB 200 under present policies would not require an increase in state taxes, or reduce the amount of funds available for other state programs. Conversely, rejection of SB 200 by the voters would not affect the level of state taxes or increase the amount of funds available for other state programs.

If SB 200 is approved by the voters and all of the projects listed in Table 1 are undertaken, the state construction expenditures would be increased by a minimum of $3.1 billion plus interest over a period of several decades. The revenues from user charges would increase and thus offset the increased expenditures.

It is possible that even if SB 200 is rejected, *some* of

the projects listed in Table 1 will be constructed in the future under the legal authority contained in those provisions of the Burns-Porter Act that would not be affected by this referendum.

The ultimate fiscal effect of this measure on the State Water Project and on the local agencies that purchase water from the project is uncertain, and would depend on future actions that cannot be predicted.

ACA 90. If SB 200 is rejected by the voters, the State General Fund would not have to reimburse Sacramento County for any superior court costs due to SB 200.

Proposition 9—Text—*Continued from page 37*

writing the state's intent to agree to administer any federal multiple-purpose water project land and water areas of the Mid-Valley Canal Unit for recreation and fish and wildlife enhancement as provided in Public Law 89-72 if constructed by the United States.

(l) Western Delta Overland Water Facilities, to supply water to agricultural areas on Sherman Island, Jersey Island, Hotchkiss Tract, and adjacent areas.

(m) (1) Facilities to provide for the transportation of water to termini to serve the Counties of San Joaquin, San Francisco, and San Mateo.

(2) Facilities to provide for the transportation of a supplemental water supply to areas in Alameda and Contra Costa Counties not served through the Contra Costa Canal or the South Bay Aqueduct, provided that the water to be delivered shall be water developed by facilities of the federal Central Valley Project.

11256. (a) Construction of the facilities described in subdivision (a) or (k) of Section 11255 shall commence only if the department enters into a permanent agreement with the Department of Fish and Game for the protection and enhancement of fish and wildlife which shall provide for the following:

(1) The restoration and maintenance of adult populations of fish and wildlife at historical levels in the delta and the Suisun Marsh and the San Francisco Bay system westerly of the delta. Maintenance at historical levels shall consider natural fluctuations in annual water supply and populations of fish and wildlife. The agreement shall include those limitations on exports and diversions to storage which are necessary to restoring and maintaining historical levels of fish and wildlife.

To the extent practicable, fresh water needed to restore and maintain fish and wildlife in the San Francisco Bay System westerly of the delta shall be provided from unregulated flows, and

(2) The realization of the potential of the project for increasing these resources above the levels in paragraph (1) consistent with the contracts for water delivery and with other purposes of the projects.

(b) The department shall immediately proceed with activities prerequisite to the construction of the facilities provided for in subdivision (a) of Section 11255 and shall complete the design and commence construction as soon as possible.

11257. The authorizations contained in subdivisions (c), (f), (g), (h), and (k) of Section 11255 are conditional upon the completion of engineering, economic, environmental, and financial feasibility reports found favorable by the Director of Water Resources.

Each financial feasibility report shall contain:

(a) An initial allocation of project costs to project purposes.

(b) The proposed method of financing.

(c) An estimate of the method of repayment.

(d) A designation of the water and power contractors that are proposed to repay the allocated reimbursable water development costs, including interest if any, on upstream storage, conveyance, operations, maintenance, and replacement.

(e) An estimate of the impact upon retail water prices in the various service areas of the project.

11258. The environmental impact report on the peripheral canal shall include a discussion of the sources of the mineral, nutrient, and biological components of the Sacramento River and shall evaluate the possible impacts to such components resulting from the operation of the proposed peripheral canal.

If the department determines that there will be significant adverse mineral, nutrient, or biological effects caused by the operation of the peripheral canal, the department shall:

(a) Evaluate mitigation measures in the environmental impact report.

(b) Propose cost allocation principles for the mitigation.

(c) Prepare trial cost allocation.

To the extent practicable, the department shall mitigate adverse impacts upon mineral, nutrient, or biological effects caused by the operation of the canal.

SEC. 5. Section 11456 is added to the Water Code, to read:

11456. The department shall enter into permanent and enforceable contracts, with the delta agencies specified in this section, for the purpose of recognizing the right of users to make use of the waters of the delta and establishing criteria for the minimum quality of water which shall prevail within the delta before water may be exported therefrom, such quality to be adequate to permit the preservation of present delta agricultural, domestic, and environmental uses, all as provided in Part 4.5 (commencing with Section 12200) of this division. Such contracts shall provide for reasonable payment to be made for any benefits which may be received through the water supply or quality provided in such contracts in excess of that which would have been available in absence of the operations by the State Water Resources Development System and by the federal Central Valley Project, and offset by any detriments caused thereby. If contracts have not been executed by the effective date of this section, differences between the state and such agencies shall be resolved by arbitration upon the written request of either party to the proposed contract identifying the issues upon which arbitration shall be held, which arbitration shall be conducted in accordance with Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure. The agencies with which such contracts shall be entered into are the following:

(a) North Delta Water Agency.

(b) Central Delta Water Agency.

(c) South Delta Water Agency.

(d) East Contra Costa Irrigation District.

(e) Byron-Bethany Irrigation District.

(f) Contra Costa County Water Agency.

(g) Contra Costa County Water District.

(h) Suisun Resource Conservation District.

When binding determinations have been made involving two-thirds of the total acreage within the delta and Suisun Marsh located within the foregoing agencies, the department or the remaining agencies may withdraw from the arbitration proceedings. The provisions of this section shall not supersede any requirement for elections to approve such contracts, reached by negotiation or arbitration, as may be required by the act authorizing creation of the agency.

SEC. 6. Section 11457 is added to the Water Code, to read:

11457. The costs of providing any benefits received by agricultural, municipal, and industrial water users in the delta as a result of project operations, in excess of any detriments caused thereby, shall, to the extent properly allocable be repayable to the department by the beneficiaries. The costs of providing such benefits shall not be reimbursable by any State Water Resources Development System water service contractor who does not receive those benefits.

SEC. 7. Section 11458 is added to the Water Code, to read:

11458. (a) Except as provided for in subdivision (b) of this section, the department shall not transport water for the federal Central Valley Project through project facilities, including the peripheral canal, until the following events occur:

(1) The Congress of the United States enacts legislation or the Secretary of the Interior enters into a permanent contract with the department which requires operation of the federal Central Valley Project:

(A) In full coordination with the State Water Resources Development System and in compliance with water quality standards adopted pursuant to Section 13170 and as set forth as conditions in permits and licenses as provided for in Part 2 (commencing with Section 1200) of Division 2; provided, that actions of the State Water Resources Control Board in establishing water quality standards and conditions in permits and licenses shall be a combined action meeting all the applicable requirements of Part 2 (commencing with Section 1200) of Division 2.

(B) In conformity with a permanent agreement between the United States and the state for the protection and enhancement of fish and wildlife which shall provide for the following:

(i) The restoration and maintenance of adult populations of fish and wildlife at historical levels in the delta and the Suisun Marsh and the San Francisco Bay System westerly of the delta. Maintenance at historical levels shall consider natural fluctuations in annual water supply and populations of fish and wildlife. The agreement shall include those limitations on exports and diversions to storage which are necessary to assist in restoring and maintaining historical levels of fish and wildlife.

To the extent practicable, fresh water needed to restore and maintain fish and wildlife in the San Francisco Bay System westerly of the delta shall be provided from unregulated flows and

(ii) The realization of the potential of the project for increasing these resources above the levels in paragraph (i), consistent with the contracts for water delivery and with other purposes of the projects.

(2) The federal government agrees to the transportation of water of the federal Central Valley Project through the facilities described in subdivision (a) of Section 11255.

(b) The department may transport water for the federal Central Valley Project through project facilities: (1) under contracts between the department and the United States existing on the effective date of this section, (2) and in accordance with the requirements of any decision of the State Water Resources Control Board, and (3) for the San Felipe Unit of the federal Central Valley Project in implementation of the principles of the agreement between the department and the Santa Clara Valley Water District as follows: if operation of the federal Central Valley Project to meet delta water quality standards requires proportionate reduction in deliveries of water to the San Felipe Unit, such reductions will be made.

SEC. 8. Section 11460 of the Water Code is amended to read:

11460. *(a)* In the construction and operation by the department of any project under the provisions of this part a watershed or area wherein water originates, or an area immediately adjacent thereto which can conveniently be supplied with water therefrom, shall not be deprived by the department directly or indirectly of the prior right to all of the water reasonably required to adequately supply the beneficial needs of the watershed, area, or any of the inhabitants or property owners therein.

(b) The project shall be operated in compliance with water quality standards set forth as conditions in permits or licenses as provided for in Part 2 (commencing with Section 1200) of Division 2 and in water quality control plans as provided for in Section 13170 or as established by contract, including rectifying failure of the United States to operate the federal Central Valley Project in accordance with such standards; provided that actions of the State Water Resources Control Board in establishing water quality standards and conditions in permits and licenses shall be a combined action meeting all the applicable requirements of Part 2 (commencing with Section 1200) of Division 2.

(c) The department, the Attorney General, and other state agencies shall take all necessary actions, including initiating or participating in judicial, administrative, and legislative proceedings, to assure that the federal Central Valley Project is operated in compliance with standards established by the State Water Resources Control Board as specified in subparagraph (A) of paragraph (1) of subdivision (a) of Section 11458.

SEC. 9. Section 11915.2 is added to the Water Code, to read:

11915.2. The department shall make an allocation of the costs to the project which provide water for water quality, fish and wildlife, and recreation in the delta, Suisun Marsh, or San Francisco Bay, to compensate for historic upstream depletions and diversions which have reduced the amount of water naturally available in the delta, Suisun Marsh, and San Francisco Bay. Public agencies that have contracted for water supplies from the project shall not be responsible for such allocated costs.

SEC. 10. (a) The Department of Fish and Game is authorized to administer a comprehensive study to determine the interrelationship between delta outflow, including flushing flows, and fish and wildlife resources in the San Francisco Bay System westerly of the delta and waste discharges into the San Francisco Bay System. The State Water Resources Control Board shall be responsible for the portions of the study relating to waste discharges. Such study and the work plan for it shall be reviewed by a committee composed of representatives of the San Francisco Bay Conservation and Development Commission, the State Water Resources Control Board, and the Department of Water Resources. The Department of Fish and Game shall report progress on such study annually to the Legislature. Such report shall include recommendations for coordination with any other ongoing related study and for adjustment in funding and the report shall include independent statements of review from each agency on the review committee.

(b) The primary purpose of the study is to provide data to aid the State Water Resources Control Board in its consideration of the need to set standards to protect San Francisco Bay to assure that planning for future projects will not appreciably reduce unregulated delta outflows before the State Water Resources Control Board determines the need for water quality standards to protect the San Francisco Bay System westerly of the delta.

(c) The study need not be completed before the final environmental impact report on the peripheral canal authorized by subdivision (a) of Section 11255 of the Water Code is adopted.

(d) Nothing in this section shall affect the obligation of the Department of Water Resources under the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code).

SEC. 11. The Department of Water Resources shall study the possible interconnection between the State Water Resources Development System and water supply systems serving the Counties of Alameda, Contra Costa, San Francisco, San Joaquin, and San Mateo.

SEC. 12. The Department of Water Resources may participate in an investigation of the need to enlarge Shasta Dam and Reservoir or other existing federal reservoirs for joint use of the State Water Resources Development System and the federal Central Valley Project, if a contract therefor is executed between the Secretary of the Interior and the Department of Water Resources. The study shall be subject to the provisions of Section 11257 of the Water Code.

Proposition 10—Text—*Continued from page 41*

In an effort to reduce election costs, the State Legislature has authorized the Secretary of State and counties having this capability to mail only one ballot pamphlet to addresses where more than one voter with the same surname resides. If you wish additional copies, you may obtain them by calling or writing to your county clerk or registrar of voters.

CERTIFICATE OF SECRETARY OF STATE

I, March Fong Eu, Secretary of State of the State of California, do hereby certify that the foregoing measures will be submitted to the electors of the State of California at the PRIMARY ELECTION to be held throughout the State on June 8, 1982, and that the foregoing pamphlet has been correctly prepared in accordance with law.

Witness my hand and the Great Seal of the State in Sacramento, California, this 18th day of March 1982.
